**PARIS, 9 JULY 2012**

Dear Madam, Dear Sir, Dear Friends,

For 18 years, you have regularly received the **“INBO Newsletter”**, more than 25,000 copies of which are disseminated in French, English, Spanish and Russian all over the world.

This newsletter is very successful and shows the mine of experiences and information available in the 185 member organizations and observers of the International Network of Basin Organizations (INBO) from more than 68 countries and their mobilization to write interesting articles, which contribute to our joint project: **“Integrated water resource management at the level of river basins”**.

It is requested by many institutions, interested in following up our actions.

Acknowledging this fact, we will launch the 21<sup>st</sup> issue of the **“Network Newsletter”** in **2012**.

As for the previous one, this new **“INBO Newsletter”** will only come into being if all the member organizations and observers directly contribute by writing the articles they wish to be published, and by complying with a few basic rules to facilitate its editing and translation.

**The letter is also open to any organization which implements or supports integrated river basin management over the world.**

For this purpose, you will find appended some recommendations to be taken into consideration when writing your articles.

Please be reminded that each article must be short and not exceed **2,500 characters (spaces included)** or a typed page – **Arial 11 on Word**.
