preparations for  
7<sup>th</sup> World Water Forum  
Take part in the discussions

## The 7th World Water Forum will take place in Daegu & Gyeongbuk, Korea, 12 – 17 April 2015

French Water Partnership (FWP) and Danish Water Forum (DWF) facilitate the European preparatory process. We invite all water stakeholders in Europe to join the process in regional events and as session conveners.

We will involve national and European-wide acting organizations, national governments, NGOs, National Water Partnerships and European Institutions in open inclusive multi-stakeholder discussions. We will bring water users on board, such as businesses and farmer associations.

### Kick-off meeting identified topics

The kick-off was held in Brussels on May 19th Here we identified 6 topics to include in the European process:

- Transboundary Water Management
- Climate Change
- Integrated implementation of EU directives and UNECE convention
- Water Efficiency in a broad definition
- Innovative and Integrated Urban Water Management
- Science and Technology – implementation of linkages
