Agenda of the meeting:

**10^{ème} ASSEMBLEE GENERALE MONDIALE
DU RESEAU INTERNATIONAL DES ORGANISMES DE BASSIN
MERIDA (MEXICO) – DU 1^{er} AU 4 JUIN 2016**

Ordre du jour de la réunion:

- Le bilan de la participation du RIOB à la COP21 de Paris de Décembre 2015,
- La signature du «Pacte de Paris pour l'adaptation au changement climatique »
- La Préparation de la COP22 à Marrakech au Maroc fin Novembre 2016,
- La conférence internationale préparatoire « Eau et Climat » à Rabat au Maroc,
- Candidature pour la prochaine Assemblée Générale Mondiale du RIOB en 2019,
- L'ordre du jour, les resolutions et la Déclaration de l'AGM RIOB de Mérida» 2016,
- La conférence « EURO – RIOB » en 2016, à Lourdes en France,
- Les autres manifestations 2016 et 2017 organisées par le RIOB,
- Le bilan de la participation du RIOB au VIIème Forum Mondial de l'Eau de,
- La préparation du 8ème Forum Mondial de l'Eau de Brasilia en 2018,
- L'implication du RIOB dans l'Initiative pour la Gouvernance de l'Eau de l'OCDE,
- La Plateforme des bassins pilotes pour l'adaptation au changement climatique »,
- Les activités du Programme des Nations Unies pour l'Environnement (PNUE),
- Initiative pour le développement des Systèmes Intégrées d'Information sur l'Eau,

- INBO participation at the COP21 in Paris in December 2015,
- **Signature of “The Paris Pact for climate change adaptation in basins”,**
- Preparation of the COP22 in Marrakech in Morocco late November 2016,
- **International conference “Water and Climate” in Rabat (Morocco),**
- Call for candidates to **host** next INBO World General Assembly in 2019,
- **Agenda, resolutions and Declaration of our 2016 World General Assembly,**
- Next "EUROPE – INBO" conferences, in 2016 in Lourdes (France),
- **The other events organized by INBO or associating INBO in 2016 – 2017,**
- Report of INBO participation in the last 7th World Water Forum in Daegu,
- **Preparation of the 8th World Water Forum in Brasilia in 2018,**
- INBO involvement in OECD Water Governance Initiative (WGI),
- **The “Platform of pilot Basins for Adaptation to Climate Change”,**
- Activities with the United Nations Environment Program (UNEP),
- **Initiative for the establishment of Integrated Water Information Systems**

Conférence Internationale sur l'Eau et le Climat

Rabat, 11-12 juillet 2016

Note de présentation
et feuille de route de préparation de la conférence

GLOBAL NEXUS

Positionnement de l'eau à la COP22

I Conférence internationale sur l'eau et le climat

- Une conférence organisée conjointement par le Ministère délégué chargé de l'Eau du Royaume du Maroc, le Ministère de l'Environnement, du Développement Durable et de l'Energie de la République Française et le Conseil Mondial de l'Eau;
- Il s'agit d'une occasion pour rappeler l'impact du changement climatique sur l'eau, et souligner l'importance de l'eau comme étant une solution au changement climatique et non pas seulement un secteur affecté;
- Cette conférence permettra d'assembler les acteurs politiques, institutionnels, scientifiques et techniques pour réfléchir, échanger et agir pour la prise charge des questions de l'eau et du climat. La conférence donnera surtout un signal clair sur la nécessité de poursuivre les initiatives adoptées lors de la COP21 notamment #ClimateisWater, la coalition des mégapoles sur l'eau;
- la Conférence permettra également d'assurer un suivi concret des engagements pris par les organismes de bassin, les villes, le secteur privé, les institutions de financement, la société civile et les jeunes, et surtout de souligner l'urgence de mobiliser les financements internationaux nécessaires.

Ministère délégué auprès du Ministre de l'Energie, des Mines, de l'Eau et de l'Environnement, Charge de l'Eau

II COP22

- L'organisation de cette conférence permettra de créer un momentum autour de l'eau en vue de consacrer toute une journée dédiée à l'eau pendant la COP de Marrakech ;
- Cette journée sera l'occasion pour porter les messages politiques issus de la conférence internationale sur l'eau et le climat et de faire des actions en faveur de l'eau, l'essentiel des mesures à engager pour la mise en œuvre de l'Accord de Paris ;
- Présentation des préparatifs de la conférence à la Commission d'organisation de la COP22;

Twinning between Basins Organizations

Spain - Italy

Twinning between the Júcar and Arno Basin Authorities

The Júcar River Basin Authority (JRBA) has been since 1934 an autonomous organization with a wide experience regarding integrated water resources management gained in several decades.

In past years, the JRBA realized twinning agreements with other river basin organizations from countries in Europe (Greece, Romania and Bulgaria), Central Asia (Uzbekistan) and Africa (Morocco); some of those in the context of the **Twinbasin Project** (2007), with the support of the Mediterranean Network of Basin Organizations (MENBO).

Following first contacts during the 8th EUROPE-INBO Conference in Mégève (2010), the JRBA has signed a twinning agreement with **the Authority of the Arno River Basin (Italy)**.

The hydrological characteristics of the Arno and Júcar River Basins are similar.

Both river basin organizations collaborated during one year (2011-12), working on the technical aspects of the implementation of the Water Framework and Flood Directives. During the World Water Forum, the JRBA presented a comparative analysis on the state of compliance with the Good Status goals for Water Bodies to be fulfilled by 2015 in several Euro-Mediterranean river basins: Júcar, Duero (Spain), Arno (Italy) and all the French basins.

The experience of the twinning has been satisfying and interesting for the involved parties. Both organizations depending on the national central administration, count on similar management organs and instruments.

However, the methodology used by each country to implement the European directives depends on the internal administrative structure of each Member State, which sometimes made difficult a real comparison of the proposed works during the twinning, especially

regarding the economic analysis, cost recovery, program of measures and its financing.

**Come and sign the Pact
on water and adaptation
to climate change
in the basins
of rivers, lakes and
aquifers !**

cop21-Paris-pact.inbo-news.org

**Paris Pact on water
and adaptation to climate change
in the basins of rivers, lakes and aquifers**

At the twenty-first Conference of the Parties to the United Nations Framework Convention on Climate Change (COP21 / CMP11) organized from 30 November to 11 December 2015 in Paris, **We**, representatives of governments, international organizations, donors, national and transboundary basin organizations of rivers, lakes or aquifers, local authorities, of the civil society and companies, support the integration of Water into the Climate change Action Agenda, especially for initiating or strengthening necessary adaptation actions in the basins of rivers, lakes, aquifers and large wetlands.

GENERAL STATEMENT

Climate change is already affecting and will increasingly affect the quantity and quality of freshwater and aquatic ecosystems, especially through the intensity and greater frequency of extreme hydrological events, such as floods and droughts, as well as the increase in ocean level, which threaten security, economic and social development and the environment.

We recognize that adaptation actions should be undertaken without delay to minimize the impacts of climate change on the populations' health and safety, on economic development and the environment, considering the importance of the protection of water-related ecosystems.

The basins are natural areas where water flows on the surface and in the subsoll: they are the relevant territories for organizing water resources management.

In order to ensure more effectiveness, these actions to adapt to climate change should thus be implemented at the level of river, lake and aquifer basins, through a joint, participative, integrated and sustainable water resources management.

We should act quickly before it is too late!

To that end, mobilizing new and increasing funding dedicated to climate change adaptation in basins is essential. Therefore, new basin organizations and existing ones should be financed and strengthened to facilitate the cooperation, coordination and exchange of information, dialogue, consultation and prevention of conflicts between stakeholders and to enhance the implementation of adaptation measures and the sharing of benefits on the basin scale,

We encourage donors to support prior assessments and actions for adaptation to climate change in basins,

Local authorities and communities, economic sectors and the civil society should be better associated and involved in basin management, including in the definition and implementation of adaptation measures.

Cooperation and exchange should increase between the institutions involved, especially among the basin organizations at the global and regional levels in order to facilitate the transfer of experience and know-how on best practices in basin management and adaptation to climate change.

CHINA – HAI RIVER BASIN Integrated water resources management and adaptation to climate change.

- **Context:** - Megacities (Beijing+Tianjin: 34 million people)
 - Highly affected by water stress, frequent floods and droughts.
- **Objective:** **Testing in pilot basins of Zhou and Luan rivers tributaries of the Hai**
 - Developing River Basin Management Plans (RBMP)
 - Implementing Program of Measures (PoM)
 - Revision of rules of operation reservoir-dams
 - Implementation of a minimum environmental flow policy,
 - Fight against eutrophication of the reservoirs),
 - Surface water and groundwater monitoring
- **Beneficiaries:** The population of the Luan and Zhou river basins, including Tianjin (China’s 4th biggest city, with 14 million inhabitants),
- **Timeframe:** 1st phase: 2011-2012 ; 2nd phase: 2012-2015 ; 3rd phase: 2016-2018.
- **Funding/commitments:** 3rd phase: 805 000€.

MEXICO – MEXICO VALLEY Integrated water resources management and adaptation to climate change.

- **Context:** - Megacity (Mexico: 23 million people),
- Water poor, strong constraints from altitude (2250m) and climate change.
- **Objective:** **Developing adaptation capacities in the Valley of Mexico**
 - Creation of a Greater Mexico Metropolitan Organization for Water:
 - o integration of water utilities (Federal District, Mexico and Hidalgo),
 - Strengthening of the Mexico Valley’s Basin Council:
 - o Development of information system,
 - o Development of River Basin Management Plans (RBMP),
 - o Testing of economic tools (polluter-pays, cost/benefits & cost/efficiency)
 - o Training sessions,
- **Beneficiaries:** The population of Mexico City (the world’s second biggest city with 23 million people),
- **Timeframe:** 2016-2020.
- **Funding/commitments:** 1 080 000 €.

RESEAU INTERNATIONAL DES ORGANISMES DE BASSIN

La lettre du RIOB

Rejoignez-nous à Mérida au Mexique, du 1^{er} au 4 juin 2016 pour la 10^{ème} Assemblée Générale Mondiale du RIOB !

"Mexico +20"

Il y a tout juste 20 ans, la première Assemblée Générale Mondiale du RIOB s'est tenue à Morelia au Mexique... Cette année, après Fortaleza, au Brésil en 2013, c'est le Mexique qui accueillera, une nouvelle fois, la prochaine Assemblée Générale Mondiale du Réseau International des Organismes de Bassin (RIOB). En vingt ans, la gestion par bassin s'est imposée, sur tous les continents, comme une nécessité pour faire face efficacement aux grands défis mondiaux.

Tous les trois ans, l'Assemblée Générale Mondiale du RIOB est l'occasion d'échanger entre les représentants des Organismes de Bassin du Monde entier et leurs partenaires et de mobiliser les réseaux régionaux pour débattre "d'une meilleure gestion de bassin pour faire face à ces grands défis mondiaux".

Quatre Tables Rondes sont programmées sur :

- l'adaptation au changement climatique dans les bassins ;
- le mandat, la composition, le rôle et les moyens des Conseils et Comités de Bassin ;
- la gestion durable des bassins : la planification et les financements ;
- la participation des secteurs économiques et des citoyens.

L'Assemblée Générale sera aussi l'occasion de tirer un premier bilan de la mise en œuvre du "Pacte de Paris sur l'eau et l'adaptation au changement climatique dans les bassins", d'ores et déjà signé par 342 organisations du Monde entier dans le cadre de la COP21 - 2015 de Paris et pour la préparation de la COP22 de Marrakech en 2016.

Vous êtes invités à présenter vos expériences !

Avril 2016 - n°24

INTERNATIONAL NETWORK OF BASIN ORGANIZATIONS

INBO Newsletter

Join us in Mérida, in Mexico, from 1 to 4 June 2016 for INBO 10th World General Assembly!

"Mexico +20"

Just 20 years ago, the first INBO World General Assembly took place in Morelia, Mexico. This year, after Fortaleza, Brazil in 2013, Mexico will host, once again, the next World General Assembly of the International Network of Basin Organizations (INBO). In twenty years basin management has imposed itself on all the continents, as a necessity to deal effectively with the great global challenges.

Every three years, INBO World General Assembly is an opportunity to exchange between representatives of Basin Organizations from all over the world and their partners and to mobilize its regional networks for discussing about "Better Basin Management to face these global challenges".

Four Round Tables are scheduled:

- Adaptation to climate change in basins,
- Mandates, composition, role and means of the Basin Councils and Committees,
- Sustainable basin management: planning and funding
- Participation of the economic sectors and citizens.

The General Assembly will also be an occasion to make a first assessment of the implementation of the "Paris Pact on water and adaptation to climate change in basins", already signed by 342 organizations from the whole world as part of COP21 - Paris 2015, and to prepare COP22 in Marrakech in 2016.

You are invited to present your experiences!
Please register to participate: www.riob.org/inscription/inbo-2016.php

May 2016 - n° 24

RED INTERNACIONAL DE ORGANISMOS DE CUENCAS

La carta de la RIOC

¡Únase a nosotros en Mérida, México, del 1 al 4 de junio de 2016 para la X Asamblea General Mundial de la RIOC!

"México +20"

Hay sólo 20 años, la primera Asamblea General Mundial de la RIOC tuvo lugar en Morelia, México. Este año, después de Fortaleza, en Brasil en 2013, México acogerá, una vez más, la próxima Asamblea General Mundial de la Red Internacional de Organismos de Cuencas (RIOC). En veinte años, la gestión por cuenca se ha impuesto, en todos los continentes, como una necesidad para hacer frente eficazmente a los grandes desafíos mundiales.

Cada tres años, la Asamblea General Mundial de la RIOC es la ocasión de intercambios entre representantes de los Organismos de Cuencas del Mundo entero y sus socios y de movilizar los redes regionales para discutir de "una mejor gestión de las cuencas para enfrentar estos grandes desafíos mundiales".

Cuatro Mesas Redondas están planeadas:

- Adaptación al cambio climático en las cuencas,
- Mandato, composición, papel y medios de los Consejos y Comités de Cuencas,
- Gestión duradera de las cuencas: planificación y sostenibilidad,
- Participación de los sectores económicos y ciudadanos.

La Asamblea General será también la ocasión para hacer un primer balance de la implementación del "Pacto de París sobre el agua y la adaptación al cambio climático en las cuencas", ya firmado por 342 organizaciones del Mundo entero en el marco de la COP21 - 2015 de París, y para preparar la COP22 de Marrakech en 2016.

¡Están invitados a presentar sus experiencias!

and give a faithful idea of the result of the past fiscal year
and of the financial situation and assets of the association**

Year 2014 – Année 2014

Opinion sur les comptes annuels

Nous avons effectué notre audit selon les normes professionnelles applicables en France ; ces normes requièrent la mise en œuvre de diligences permettant d'obtenir l'assurance raisonnable que les comptes annuels ne comportent pas d'anomalies significatives. Un audit consiste à examiner, par sondages, les éléments probants justifiant les données contenues dans ces comptes. Il consiste également à apprécier les principes comptables suivis et les estimations significatives retenues pour l'arrêté des comptes et à apprécier leur présentation d'ensemble. Nous estimons que nos contrôles fournissent une base raisonnable à l'opinion exprimée ci-après.

Nous certifions que les comptes annuels sont, au regard des règles et principes comptables français, réguliers et sincères et donnent une image fidèle du résultat des opérations de l'exercice écoulé ainsi que de la situation financière et du patrimoine de l'association à la fin de cet exercice.
