2007 Resumed session (14-18 May 2007)**

Dear Mr. Jean-Francois Donzier,

We are pleased to inform you that the Committee on Non-Governmental Organizations at its 2007 resumed session, on 14-18 May 2007, has decided to recommend that your organization "Réseau International des Organismes de Bassin" be granted special consultative status.

Please note that this recommendation is still subject to the approval of the Economic and Social Council, which will consider and take action on the Committee's recommendation at its substantive session, scheduled for 2-27 July 2007 in Geneva.

Once taken, we shall inform you of the Council's final decision on your application.

Sincerely yours,

Hanifa Mezoul, Chief

**The theme of basin management and transboundary cooperation has been widely discussed during the recent World Water Forum in Marseilles.**

**I UNESCO and the International Network of Basin Organizations (INBO) jointly coordinated the nine official sessions of Priority 1.5 «Contribute to cooperation and peace», mainly on the management of the basins of transboundary river, lakes and aquifers.**

**I INBO also coordinated with OECD, target 3, Condition for Success 1 "Good governance" related to the development and implementation of national or transboundary Basin Management Plans.**

**I The European Commission and UNECE also coordinated two sessions of the European process, in close liaison with the "**Europe-INBO**" group:**

- "Water Convention" (1992) and transboundary basin management in Europe ,
- the implementation of the European Water Framework Directive (WFD) ,

International Network of Basin Organizations

International Office For Water PARIS-FRANCE

### Red Internacional dos Organismos da Bacia

#### Pacto Mundial para uma melhor gestão das bacias

Nós, representantes de organismos de bacia de rios, de lagos ou de aquíferos, em diferentes partes do mundo, aderimos ao presente "Pacto Mundial para uma melhor gestão das bacias", para desenvolver a gestão integrada e solidária dos recursos em água, à escala das bacias nacionais, regionais e transfronteiriças e responder aos desafios que o nosso planeta deve combater.

Effectivamente, temos de alcançar os Objetivos do Milénio para o Desenvolvimento, garantir um "crescimento verde" e enfrentar as mudanças globais ligadas ao aumento rápido da população mundial, às migrações, à urbanização crescente, à mudança climática, etc.

Para 2: **DECLARAÇÃO PRELIMINAR**

- Que as bacias dos rios, lagos e aquíferos são os territórios apropriados para a organização da gestão solidária dos recursos em água;
- Que os diferentes ecossistemas presentes nas bacias vertentes têm uma grande importância tanto para a biodiversidade como para os serviços ambientais prestados, nomeadamente para a regularização dos ciclos hidrológicos e a prevenção dos riscos, bem como para a depuração das poluições;

► Que as bacias dos rios, lagos e aquíferos transfronteiriços devem serm sujeitos a um diálogo, a cooperação, a troca de informações, a partilha de experiências e a prevenção de conflitos potenciais;

► Que a criação e o desenvolvimento de estruturas de diálogo, a cooperação, a troca de informações, a partilha de experiências e a prevenção de conflitos potenciais;

► Que convém estabelecer mecanismos de cooperação, a troca de informações, a partilha de experiências e a prevenção de conflitos potenciais;

► Que é necessária a criação de estruturas de diálogo, a cooperação, a troca de informações, a partilha de experiências e a prevenção de conflitos potenciais;

► Que é necessário desenvolver estruturas de diálogo, a cooperação, a troca de informações, a partilha de experiências e a prevenção de conflitos potenciais;

### International Network of Basin Organizations

#### World Pact for better basin management

Gathered in Marrakech on the occasion of the 9th World Water Forum on 16 March 2012, we, representatives of river, lake or aquifer basin organizations, from different parts of the world, subscribe to the present "World Pact for better basin management" in view of the development of integrated and joint water resources management at the national, regional and transboundary level to meet the challenges facing our planet.

► It is becoming imperative to introduce and/or permanently strengthen new forms of governance of water resources, such as those already recommended at Dublin (1991), Rio (1992), Paris (1998), The Hague (2000), Johannesburg (2002), Kyoto (2003), Mexico (2006) and Istanbul (2009) in particular;

► River, lake and aquifer basins are the relevant territory for the organization of joint management of water resources, aquatic ecosystems, and all the different related activities;

► The various ecosystems present in river basins are very important both for biodiversity and environmental services, including for the regulation of the hydrological cycle and risk prevention, as well as for the treatment of pollution;

► The special attributes of rivers, lakes and aquifers are to be paid special attention and to be jointly managed by the riparian countries.

Pacto www.riob.org

### Red Internacional de Organismos de Cuenca

#### Pacto Mundial para una mejor gestión de las cuencas

Reunidos en Marrakech con motivo del IX Foro Mundial del Agua de marzo de 2012, nosotros, representantes de organismos de cuencas de río, lago o acuífero de distintas partes del mundo, adherimos al presente "Pacto Mundial para una mejor gestión de las cuencas" con el fin de que se desarrollen la gestión integrada de los recursos hídricos a escala de cuencas y acuíferos nacionales, regionales y transfronterizos, y así responder a los retos a los que debe enfrentarse nuestro planeta.

► Nos comprometemos a reforzar la integración regional mediante la articulación de las políticas y legislativas y mediante la puesta en marcha de programas regionales de interés común imprescindibles para mejorar la gestión de los recursos hídricos subterráneos y superficiales a escala de cuencas;

► Es necesario crear o reforzar los mecanismos administrativos para facilitar las iniciativas bi o multilaterales en este sector estratégico de la gestión de las cuencas;

► Los protagonistas de la sociedad civil y las autoridades locales han de ser asociados mejor e implicados en la gestión de las cuencas desde sus territorios;

► Es necesario reforzar la cooperación entre los organismos de cuenca del mundo entero y de cada región para facilitar la transferencia de experiencias y del conocimiento de las mejores prácticas con respecto a la gestión de cuencas y su adaptación en los diferentes contextos.

Pacto www.riob.org

### Réseau International des Organismes de Bassin

#### Pacte Mondial pour une meilleure gestion des bassins

Nous, représentants d'organismes de bassin de fleuves, de lacs ou d'aquifères, de différentes parties du monde, adhérons au présent "Pacte Mondial pour une meilleure gestion des bassins", en vue de développer la gestion intégrée et solidaire des ressources en eau, à l'échelle des bassins nationaux, régionaux et transfrontières, et répondre aux défis que notre planète doit affronter nos défis.

► Il est nécessaire de créer ou de renforcer les mécanismes dédiés à la gestion des ressources en eau et des milieux aquatiques et d'une façon générale du "grand cycle" de l'eau;

► Il est utile d'établir ou de renforcer des cadres législatifs pour faciliter les initiatives bi ou multilatérales dans ce domaine de la gestion de bassin;

► Que les acteurs de la société civile et les communautés locales doivent être mieux associés et impliqués dans la gestion des bassins à leur échelle;

► Il faut renforcer la coopération entre les organismes de bassin du monde entier et de chaque région pour faciliter le transfert d'expériences et de savoir-faire et les meilleures pratiques en matière de gestion de bassin et leur adaptation dans différents contextes.

Pacte www.riob.org

► Que los basins de los rios, lagos e aquíferos transfronterizos deben ser objeto de un diálogo de alto nivel y de un diálogo de alto nivel en colaboración entre los Países rivariantes;

► Que la creación e el fortalecimiento de organismos de bassin, sous les formes les plus appropriées, et notamment de commissions internationales, d'autorités ou autres organismes de bassin transfrontières, facilitent le dialogue, la coopération, l'échange d'information et la mise en oeuvre des actions et projets communs, permettent de partager les bénéfices, d'anticiper l'avenir et de prévenir des conflits potentiels, entre les acteurs concernés;

► Qu'il est nécessaire d'intégrer l'organisation en harmonisant les politiques et les législations et de mettre en oeuvre des programmes régionaux d'intérêt commun indispensables à l'amélioration de la gestion des ressources en eau aux échelles nationales et supérieures à l'échelle des bassins;

► Il est utile d'établir ou de renforcer des cadres législatifs pour faciliter les initiatives bi ou multilatérales dans ce domaine de la gestion de bassin;

► Que les acteurs de la société civile et les communautés locales doivent être mieux associés et impliqués dans la gestion des bassins à leur échelle;

► Il faut renforcer la coopération entre les organismes de bassin du monde entier et de chaque région pour faciliter le transfert d'expériences et de savoir-faire et les meilleures pratiques en matière de gestion de bassin et leur adaptation dans différents contextes.

► Que los basins de los rios, lagos e aquíferos transfronterizos deben ser objeto de un diálogo de alto nivel y de un diálogo de alto nivel en colaboración entre los Países rivariantes;

► Que la creación e el fortalecimiento de organismos de bassin, sous les formes les plus appropriées, et notamment de commissions internationales, d'autorités ou autres organismes de bassin transfrontières, facilitent le dialogue, la coopération, l'échange d'information et la mise en oeuvre des actions et projets communs, permettent de partager les bénéfices, d'anticiper l'avenir et de prévenir des conflits potentiels, entre les acteurs concernés;

## «Глобальный Пакт о повышении эффективности управления на уровне бассейна»

Собралось 16 марта 2004 года в Мадриде по инициативе Всемирного Водяного Форума, мы, представители Бассейновых организаций по всему миру, договорились подписать соглашение на уровне всего мира, посвященное созданию Глобального Пакта о повышении эффективности управления на уровне бассейна

Мы должны достичь целей и задач в области развития, обеспечить экологическую ориентированность, а также должны продемонстрировать глобальное внимание к тому, насколько важно и характерно население мира, миграция, культурный обмен, экономический охват.

Наша первоочередная задача — повысить эффективность использования водных ресурсов, обеспечить безопасность, качество и доступность водных ресурсов, защитить водные ресурсы от загрязнения, повысить эффективность использования водных ресурсов, защитить водные ресурсы от загрязнения, повысить эффективность использования водных ресурсов.

Все эти задачи являются взаимозависимыми, и мы должны действовать в направлении повышения эффективности использования водных ресурсов, защитить водные ресурсы от загрязнения, повысить эффективность использования водных ресурсов.

Бассейновые организации по всему миру договорились подписать соглашение на уровне всего мира, посвященное созданию Глобального Пакта о повышении эффективности управления на уровне бассейна.

услуг, для регулирования гидрологических циклов и предотвращения последствий, в том числе засух и наводнений. Мы должны достичь целей и задач в области развития, обеспечить экологическую ориентированность, а также должны продемонстрировать глобальное внимание к тому, насколько важно и характерно население мира, миграция, культурный обмен, экономический охват.

Мы должны достичь целей и задач в области развития, обеспечить экологическую ориентированность, а также должны продемонстрировать глобальное внимание к тому, насколько важно и характерно население мира, миграция, культурный обмен, экономический охват.

Наша первоочередная задача — повысить эффективность использования водных ресурсов, обеспечить безопасность, качество и доступность водных ресурсов, защитить водные ресурсы от загрязнения, повысить эффективность использования водных ресурсов.

Бассейновые организации по всему миру договорились подписать соглашение на уровне всего мира, посвященное созданию Глобального Пакта о повышении эффективности управления на уровне бассейна.

## الشبكة الدولية لهيئات الأحواض

- أن أحواض الأنهار والبحيرات والمياه الجوفية العالمية تتقدم، ينبغي أن نضع اهتمام خاص، وذلك بتكاتف مشترك بين الهياكل المشاركة.
- إن إنشاء وتنظيم هيئات الأحواض تحت الأشكال الأكثر فعالية لا يساهم على شكل كافٍ لجان دوليين أو عرقيين أو هيئات الأحواض المائية العابرة للحدود، ويمكن أن توفر أدوات وتكنولوجيا المعلومات واتخاذ القرارات المشتركة والأساليب، مما يساهم في تعزيز التعاون ووضع المسؤوليات بوضوح الصراعات المحتملة بين الأطراف المعنية.
- ضرورية تعزيز التكامل الإقليمي مع خلال مواجهة السياسات والكشريات وتغذية الحوار الإقليمي ذات الأهمية المشتركة للحضارة لاحتوائها إياها.
- الهدف الأول من هذا الاتفاق هو تعزيز الأهمية المخصصة لإدارة الموارد المائية والبيئة.
- من الضروري أن نضع في الاعتبار الاحتياجات الخاصة للمياه العذبة والمياه الجوفية، وكذلك الاحتياجات الخاصة للمياه العذبة والمياه الجوفية، وكذلك الاحتياجات الخاصة للمياه العذبة والمياه الجوفية.
- من الضروري أن نضع في الاعتبار الاحتياجات الخاصة للمياه العذبة والمياه الجوفية، وكذلك الاحتياجات الخاصة للمياه العذبة والمياه الجوفية.
- من الضروري أن نضع في الاعتبار الاحتياجات الخاصة للمياه العذبة والمياه الجوفية، وكذلك الاحتياجات الخاصة للمياه العذبة والمياه الجوفية.

## الميثاق العالمي لتحسين إدارة الأحواض

نحن ملتزمون هذه هيئات أحواض الأنهار والبحيرات والمياه الجوفية في مناطق مختلفة من العالم، بدعم من هذا الميثاق العالمي لتحسين إدارة الأحواض، في تحسين جودة الحياة والتنمية للأشخاص الذين يعيشون على شواطئ الأحواض المائية والإقليمية والعالمية والمياه العذبة والمياه الجوفية.

### القسم الأول: إيماننا بالمشكلة

نحن ملتزمون هذه هيئات الأحواض المائية العابرة للحدود، وكذلك الاحتياجات الخاصة للمياه العذبة والمياه الجوفية، وكذلك الاحتياجات الخاصة للمياه العذبة والمياه الجوفية.

## 流域组织国际网

### 为更好管理流域的全球公约

我们代表全球各地的河流、湖泊和含水层流域组织，加入《为更好管理流域的全球公约》，旨在对国家、地区、跨流域的水资源进行综合管理。

### 第一部分：我们先言

- 我们必须不断引入和/或创新新的形式的水资源治理，且目前为止召开的会议主要有都柏林(1991年)、里约热内卢(1992年)、巴黎(1998年)、海牙(2000年)、约翰内斯堡(2002年)、京都(2003年)、墨西哥(2003年)和里斯本(2004年)。

- 跨越河流、湖泊和含水层流域组织应给予特别关注，由流域内各方共同管理。
- 采用激励性的形式建立和巩固各种流域组织，特别是国际委员会、主管部门或其他世界流域组织，可便利对话、合作、信息共享和落实行动与各自项目，可共同分享信息、预见未来并防止利益相关各方之间的潜在冲突。
- 应通过协调政策和立法，落实流域地下和地表水管理改进代表公共利益必不可少的地区项目。
- 必须设立或巩固流域管理水资源和环境管理的专项资金，并对水的“大周期”进行全面管理。
- 建立或加强统一性的框架，促进流域管理领域的双边或多边协议是有用的。
- 鼓励与社会相关方和地方社区更好地融入参与所在流域的管理。
- 必须加强全球和各个地区流域组织的合作，促进经验分享和管理最佳实践的和技术交流及其在不同背景下的调整。

### 第二部分：流域组织的承诺

- 我们承认采取行动的迫切性，代表《为更好管理流域的全球公约》的签约机构，表达我们在法定权利下、在我们拥有的能力范围内、与国家政府和国际机构一起共同携手的愿望。
- 采取行动，改进水资源的治理，在尚无流域组织存在的区域推动流域组织的建立，在已有流域组织的区域加以巩固，协助主管部门进行立法改革并制定水资源可持续发展政策和落实政策实现必要的约束。
- 根据情况，支持地方、国家和跨境流域水资源和生物多样性的可持续、综合和参与性的管理。

Of Basin  
Organizations**

## International Network of Basin Organizations

### World Pact for better basin management

We, representatives of river, lake or aquifer basin organizations, from different parts of the world, subscribe to the present **"World Pact for better basin management"** in view of the development of integrated and joint water resources management at national, regional and transboundary level to meet the challenges facing our planet.

Indeed, we must achieve the Millennium Development Goals and ensure "green growth" and face the global changes associated with the rapid world population growth, migration, increasing urbanization, climate change, etc. Our efforts should indeed allow fighting against natural disasters, reliably meeting the drinking water needs of urban and rural populations to improve hygiene and health and prevent epidemics, securing food sufficiency, developing industry, energy production, waterways transport, tourism and recreational activities, preventing and controlling pollution of all kinds to preserve aquatic ecosystems, support fish production and more generally preserve the biodiversity of water-related environments.

All these stakes cannot be tackled on a sectoral or local basis, or separately from each other. The search for solutions must instead involve all stakeholders in an integrated and joint approach, organized in cooperation with the river basin units and for the sustainable use of water resources.

#### PART 1 : PREAMBLE

Through our commitment to this Pact, we recognize that:

- It is becoming imperative to introduce and/or permanently strengthen new forms of governance of water resources, such as those already recommended at Dublin (1991), Rio (1992), Paris (1998), The Hague (2000), Johannesburg (2002), Kyoto (2003), Mexico (2006) and Istanbul (2009) in particular;
- River, lake and aquifer basins are the relevant territory for the organization of joint management of water resources, aquatic ecosystems, and all water-related activities;
- The different ecosystems found in river basins are very important both for biodiversity and environmental services, including for the regulation of the hydrological cycles and risk prevention, as well as for the treatment of pollution;
- The basins of transboundary rivers, lakes and aquifers are to be paid special attention and be jointly managed by the riparian Countries;

- The establishment and strengthening of basin organizations in best suited forms, especially international commissions, authorities or other transboundary basin organizations, facilitate dialogue, cooperation, information exchange and implementation of joint projects and actions, for sharing benefits, anticipating the future and preventing potential conflicts between the stakeholders concerned;
- It is necessary to increase regional integration by harmonizing policies and laws and by implementing the regional programmes of common interest needed to improve surface and groundwater resources management at basin level;
- It is necessary to create or strengthen the funding dedicated to the management of water resources and aquatic environments and generally of the "great water cycle";
- It is useful to develop or strengthen federating frameworks for facilitating bilateral or multilateral initiatives in this strategic field of basin management;
- The stakeholders of the civil society and the local authorities should be better associated and involved in the management of the basins where they live;
- It is necessary to increase cooperation among basin organizations around the world and in each region to facilitate the sharing of experience and know-how on best practices in river basin management and their adaptation to different contexts.

#### PART 2 : COMMITMENTS OF BASIN ORGANIZATIONS

Recognizing the need of urgent actions, We, representatives of the organizations, signatories of the **"World Pact for better basin management"**, express our will, in what comes under our statutory powers and within the limits of our own resources, to commit ourselves alongside our national governments and international institutions for:

- acting to improve water governance, facilitating the creation of basin organizations where they do not exist, strengthening existing organizations, helping the concerned authorities develop useful reforms and policies for sustainable water management and the programmes needed for their implementation in the field;
- supporting processes of sustainable, integrated, joint and participative management of water resources and environments organized on the appropriate scale of local, national or transboundary basins according to the case;

## Twinning between Basins Organizations

### Spain - Italy

### Twinning between the Júcar and Arno Basin Authorities

**The Júcar River Basin Authority (JRBA)** has been since 1934 an autonomous organization with a wide experience regarding integrated water resources management gained in several decades.

In past years, the JRBA realized twinning agreements with other river basin organizations from countries in Europe (Greece, Romania and Bulgaria), Central Asia (Uzbekistan) and Africa (Morocco); some of those in the context of **the Twinbasin Project** (2007), with the support of the Mediterranean Network of Basin Organizations (MENBO).

Following first contacts during the 8<sup>th</sup> EUROPE-INBO Conference in Mégève (2010), the JRBA has signed a twinning agreement with **the Authority of the Arno River Basin (Italy)**.

The hydrological characteristics of the Arno and Júcar River Basins are similar.

Both river basin organizations collaborated during one year (2011-12), working on the technical aspects of the implementation of the Water Framework and Flood Directives. During the World Water Forum, the JRBA presented a comparative analysis on the state of compliance with the Good Status goals for Water Bodies to be fulfilled by 2015 in several Euro-Mediterranean river basins: Júcar, Duero (Spain), Arno (Italy) and all the French basins.

The experience of the twinning has been satisfying and interesting for the involved parties. Both organizations depending on the national central administration, count on similar management organs and instruments.

However, the methodology used by each country to implement the European directives depends on the internal administrative structure of each Member State, which sometimes made difficult a real comparison of the proposed works during the twinning, especially

regarding the economic analysis, cost recovery, program of measures and its financing.

**We certify that the yearly statements are regular and sincere, in accordance with French accounting rules and principles, and give a faithful idea of the result of the past fiscal year and of the financial situation and assets of the association**

### **Opinion sur les comptes annuels**

Nous avons effectué notre audit selon les normes professionnelles applicables en France ; ces normes requièrent la mise en œuvre de diligences permettant d'obtenir l'assurance raisonnable que les comptes annuels ne comportent pas d'anomalies significatives. Un audit consiste à examiner, par sondages, les éléments probants justifiant les données contenues dans ces comptes. Il consiste également à apprécier les principes comptables suivis et les estimations significatives retenues pour l'arrêté des comptes et à apprécier leur présentation d'ensemble. Nous estimons que nos contrôles fournissent une base raisonnable à l'opinion exprimée ci-après.

Nous certifions que les comptes annuels sont, au regard des règles et principes comptables français, réguliers et sincères et donnent une image fidèle du résultat des opérations de l'exercice écoulé ainsi que de la situation financière et du patrimoine de l'association à la fin de cet exercice.
