L'ordre du jour de cette réunion du Bureau portera sur:

- L'ordre du jour de la conférence « EURO – RIOB » 2014 de Bucarest,
- L'approbation du choix de la Grèce pour « EURO – RIOB » en 2015,
- Candidatures pour recevoir « EURO – RIOB » en 2016 et 2017,
- Les manifestations 2013 et 2014 organisées par le RIOB ou associant le RIOB,
- La participation du RIOB au VIIème Forum Mondial de l'Eau de Daegu,
- Création d'un Réseau de bassins pilotes transfrontaliers pour l'adaptation au changement climatique,
- Les signatures du « Pacte Mondial pour une meilleure gestion des bassin »,
- Euro-RIOB: le Groupe de Coordination Stratégique (SCG) de la DCE – UE,
- L'initiative de l'OCDE sur la Gouvernance de l'eau,
- Les nouveaux manuels de la gestion de bassin en 2014 et 2015,
- Accord entre le RIOB et The Great Rivers Partnership,
- Création d'un passeport de « Citoyen de Bassin »,
- Partenariat avec le Centre Européen de Restauration des Rivières.....

The agenda of this Bureau meeting will deal with:

- The agenda "EUROPE – INBO" 2014 conference in Bucharest,
- Approval of the choice of Grece for hosting "EUROPE – INBO" in 2015,
- Candidatures to host "EUROPE – INBO" in 2016 and 2017,
- The events organized by INBO or associating INBO in 2013 – 2014,
- INBO participation in the preparation of the 7th World Water Forum,
- Project for establishing a network of pilot transboundary basins to test measures for adapting to climate change,
- Signatures of the "World Pact for better basin management",
- Europe-INBO: Strategic Coordination Group (SCG) of the European Union WFD,
- OECD initiative on Water Governance,
- Publications of new handbooks on basin management in 2014 and 2015,
- Project for an agreement between and The Great Rivers Partnership,
- Initiative to create a passport of "Basin Citizens",
- INBO commitment with the European Center for River Restoration (ECRR).

13-15 November 2014 – Bucharest, Romania.**

12th International Conference "Europe-INBO 2014"

Bucharest - Romania - 12 - 15 November 2014

Implementation of the European Water Framework Directive

- **Wednesday 12 November**
- 08:30 Liaison bureau Meeting CEENBO / Liaison bureau Meeting MENBO.
 - 09:30 Workshop: Regional Europe Process 7th WWF.
 - 12:00 Lunch at the hotel.
 - 13:00 Workshop: River Restoration and NWRM.
 - 17:30 Liaison bureau Meeting INBO.
 - 20:00 Cocktail.
- **Thursday 13 November**
- 09:30 Official opening ceremony.
 - 10:00 Message from DG Environment - EC.
 - 10:45 Presentation of the Romanian water policy and institutions.
 - 11:45 Objectives and actions of "Europe-INBO" Group of European Basin Organizations.
 - 13:00 Lunch at the hotel.
 - 14:30 **Roundtable 1: Preparation of WFD 2nd Management Plans (2016 - 2021):**
Integration of water quantity issues; Adaptation to climate change; Better integration with other EU Directives (Flood and Marine Strategy) and with other sectoral policies.
 - 16:45 **Roundtable 2: Natural Water Retention Measures / River restoration:**
Presentation of workshop results; study and guidance developed within CIS.
 - 19:30 Dinner offered by ANAR.
- **Friday 14 November**
- 09:00 **Roundtable 3: Implementation and funding of Measures:**
Access to funds and particularly to EU Structural Funds; Principle of cost recovery; Economic analysis for cost-effective combination of measures; ...
 - 10:30 **Roundtable 4: Water governance in transboundary basins:**
WFD International Districts; Role and means of International Commissions; Bi and Multilateral Agreements and Conventions, ...; Implementation of WFD principles in EU Neighboring Countries.
 - 12:30 Lunch at the hotel.
 - 13:30 Visit to Palace of Parliament.
 - 15:00 Preparation for 7th World Water Forum, 2015 Daegu.
 - 16:00 General synthesis, conclusions. Bucharest Declaration
Transfer of Europe INBO Presidency from Bulgaria to Romania.
 - 20:00 Dinner offered by MMSC.
- **Saturday 15 November**
- 09:00 Field visit.
 - 14:00 Departure of participants.

Twinning between Basins Organizations

Spain - Italy

Twinning between the Júcar and Arno Basin Authorities

The Júcar River Basin Authority (JRBA) has been since 1934 an autonomous organization with a wide experience regarding integrated water resources management gained in several decades.

In past years, the JRBA realized twinning agreements with other river basin organizations from countries in Europe (Greece, Romania and Bulgaria), Central Asia (Uzbekistan) and Africa (Morocco); some of those in the context of **the Twinbasin Project** (2007), with the support of the Mediterranean Network of Basin Organizations (MENBO).

Following first contacts during the 8th EUROPE-INBO Conference in Mégève (2010), the JRBA has signed a twinning agreement with **the Authority of the Arno River Basin (Italy)**.

The hydrological characteristics of the Arno and Júcar River Basins are similar.

Both river basin organizations collaborated during one year (2011-12), working on the technical aspects of the implementation of the Water Framework and Flood Directives. During the World Water Forum, the JRBA presented a comparative analysis on the state of compliance with the Good Status goals for Water Bodies to be fulfilled by 2015 in several Euro-Mediterranean river basins: Júcar, Duero (Spain), Arno (Italy) and all the French basins.

The experience of the twinning has been satisfying and interesting for the involved parties. Both organizations depending on the national central administration, count on similar management organs and instruments.

However, the methodology used by each country to implement the European directives depends on the internal administrative structure of each Member State, which sometimes made difficult a real comparison of the proposed works during the twinning, especially

regarding the economic analysis, cost recovery, program of measures and its financing.

Le «Pacte pour une meilleure gestion de bassin» « the World Pact for better basin management »

«Глобальный Пакт о повышении эффективности управления на уровне бассейна»

Собралось 16 марта 2002 года в Мадриде по случаю 50-го Всемирного Водного Форума, мы, представители Бассейновых организаций по всему миру, договорились о создании системы на уровне частей мира, первоначально под названием «Глобальный Пакт о повышении эффективности управления на уровне бассейна» с целью развития интегрированного и совместного управления водными ресурсами на национальном, региональном и трансграничном уровнях для решения проблем нашей планеты.

Мы должны достичь своей главной цели в области развития, обеспечить экологическую ориентированность, а также должны признать необходимость изменений в плане усиленного доступа к водным ресурсам, миграции, устойчивой экономики, изменения климата.

Наше взаимодействие и сотрудничество в отношении водных ресурсов должно обеспечивать потребности в чистой и здоровой воде, а также в здоровом и продуктивном земледелии, промышленности, продовольственной безопасности, развитии промышленности, энергетическом, транспорте по воздуху, туризме и рекреации. Мы должны стремиться к достижению целей в области водных ресурсов, а также к достижению целей в области охраны окружающей среды, здоровья и благополучия.

Все эти задачи не могут быть решены на уровне отдельных национальных правительств, а должны решаться на уровне международного сотрудничества, партнерства и сотрудничества в области водных ресурсов, а также в области охраны окружающей среды, здоровья и благополучия.

ЧАСТЬ II Предварительные договоренности Мы, участники Глобального Пакта, признаем, что:

- Стратегия водных ресурсов должна учитывать все аспекты управления водными ресурсами, которые были рассмотрены в Дублине (1991), Рио-де-Жанейро (1992), Париже (1998), Гагге (2000), Нью-Йорке (2002), Киото (2003), Мадриде (2006) и Стэмбуле (2009) встречах.
- Бассейновый рек, озер и подземных водных слоев является единой экосистемой, где взаимодействие водных ресурсов является основой для устойчивого развития и благополучия.
- Различные экосистемы, находящиеся в бассейнах рек, играют важную роль как для биоразнообразия, так и для экологической устойчивости.

услугу, для регулирования гидрологических циклов и предотвращения наводнений, а также для борьбы с засухами.

Необходимо уделять особое внимание бассейновым трансграничным рек, озер и подземных водных слоев и прибрежным трансграничным водно-болотным угодьям.

Создание и укрепление Бассейновых организаций в наиболее уязвимых регионах, особенно международных, комиссий, управлений и других трансграничных бассейновых организаций, способствует диалогу, сотрудничеству, обмену информацией и координированным совместным проектам и действиям в целях устойчивого использования биоресурсов, предотвращения будущих и предотвращения потенциальных конфликтов между странами заинтересованными сторонами.

Необходимо поощрять региональную интеграцию путем создания комитетов и законодательства и обеспечения региональных программ, представляющих взаимный интерес, как механизм для координации усилий в управлении водными ресурсами на трансграничном и подрегиональном уровне, а также в целях обеспечения устойчивого использования биоресурсов.

Необходимо создать или укрепить институциональные структуры в сфере управления водными ресурсами и водными экосистемами, а также способствовать сотрудничеству между странами заинтересованными сторонами.

Полное развитие или укрепление институциональных структур в целях поддержки доступности или институциональных механизмов в этой области является необходимым условием для эффективного управления водными ресурсами.

Необходимо больше общаться и взаимодействовать в управлении водными ресурсами, а также в области охраны окружающей среды, здоровья и благополучия.

Необходимо расширять сотрудничество между Бассейновыми организациями в целях и в рамках усилий, чтобы обеспечить обмен опытом и знаниями по различным методам в области управления водными ресурсами, а также в области охраны окружающей среды, здоровья и благополучия.

Мы, представители Бассейновых организаций, договорились о создании системы на уровне частей мира, первоначально под названием «Глобальный Пакт о повышении эффективности управления на уровне бассейна», а также договорились о создании системы на уровне частей мира, первоначально под названием «Глобальный Пакт о повышении эффективности управления на уровне бассейна» с целью развития интегрированного и совместного управления водными ресурсами на национальном, региональном и трансграничном уровнях для решения проблем нашей планеты.

Мы, представители Бассейновых организаций, договорились о создании системы на уровне частей мира, первоначально под названием «Глобальный Пакт о повышении эффективности управления на уровне бассейна», а также договорились о создании системы на уровне частей мира, первоначально под названием «Глобальный Пакт о повышении эффективности управления на уровне бассейна» с целью развития интегрированного и совместного управления водными ресурсами на национальном, региональном и трансграничном уровнях для решения проблем нашей планеты.

الشبكة الدولية لهيئات الأحواض

أنا أحواض الأنهار والبحيرات والمياه الجوفية العالمة للتقدم، ينبغي أن نحسن إدارتهم خاصة وأننا نشارك في المشاكل.

إن إنشاء ودعم هيئات الأحواض تحت الأشكال الأكثر ملاءمة ولا سيما على شكل أجنحة دولية أو وطني أو غيرها من هيئات الأحواض العالمة للمعروف، يمكن أن يساهم في تطوير وتنفيذ المشاريع المشتركة والأعمال، مما يحد من مخاطر الأرباح ويضع المسئولين ومع الصراعات المختلفة بين الأطراف المعنية.

ضروري تعزيز التكامل الإقليمي من خلال مواجهة السياسات والتشريعات وتبني البرامج الرامية إلى تحسين إدارة المياه.

من الضروري معالجة القضايا المتعلقة بالبيئة والمياه، بما في ذلك التلوث، وإدارة المياه، وشكل المياه، وتبني البرامج الرامية إلى تحسين إدارة المياه.

من الضروري معالجة القضايا المتعلقة بالبيئة والمياه، بما في ذلك التلوث، وإدارة المياه، وشكل المياه، وتبني البرامج الرامية إلى تحسين إدارة المياه.

为更好管理流域的全球公约

我们代表全球各地的河流、湖泊或含水层的流域组织，加入《为更好管理流域的全球公约》，旨在对国家、地区或跨流域的水资源进行综合管理。

事实上，我们必须实现千年发展目标，确保“绿色增长”，应对因全球人口快速增长、移民、城市化的日益发展、气候变化引起的全球变化。

我们将通过努力，提高自然资本，可靠地满足城市和农村饮用水的需求，改善卫生与健康条件，预防流行病，确保粮食自给、工业发展和能源生产、水事运输、旅游与休闲娱乐，预防并应对各种污染，扶持渔业，从更广泛地来看，保护水生环境的生物多样性。

所有这些挑战都不能局部或区域性处理，也不能分开单独解决。反之，寻找解决方案应采取所有相关各方通过综合一致的方法对水文单元进行协调，以实现水资源的可持续发展。

第一部分：前言

我们必须不断引入和/或创新形式的水资源治理，且目前为止召开的会议主要有都柏林(1991年)、里约热内卢(1992年)、巴黎(1998年)、海牙(2000年)、约翰内斯堡(2002年)、京都(2003年)、墨西哥(2003年)和里斯本(2006年)。

河流、湖泊和含水层是水资源、水生生态系统和所有与水相关业务综合管理的合适区域。

流域中现有的各种生态系统对于生物多样性还是环境服务都具有重大意义，尤其是对水文循环的调节、风险的防范及污染净化来说。

流域组织国际网

跨境河流、湖泊和含水层流域应给予特别关注，由流域内各方共同管理。

应采用恰当的形式建立和巩固各种流域组织，特别是国际委员会、主管部门或其他跨界流域组织，可便利对话、合作、信息共享和落实行动与联合项目，可共同分享益处、预见未来并防止利益相关各方之间的潜在冲突。

应通过协调政策和立法，落实流域地下和地表水资源管理以代表公共利益必不可少的地区项目。

必须成立或巩固管理水资源和环境管理的专门委员会，并对水的“大周期”进行全面管理。

建立或加强统一性的框架，促进流域管理领域的双边或多边倡议是有用的。

应向社会相关方和地方社区更好地融入参与所有在流域的管理。

必须加强全球和各个地区流域组织的合作，促进分享流域管理最佳实践的经验和技术交流及其在不同背景下的调整。

第二部分：流域组织的承诺

我们承认采取行动的迫切性，代表《为更好管理流域的全球公约》的签约机构，表达我们在法定权利下、在我们拥有的能力范围内、与国家政府和国际机构一起共同携手的意愿，以：

采取行动，改进水资源的治理，在尚无流域组织存在的区域推动流域组织的建立，在已有流域组织的区域加以巩固，协助主管部门进行立法改革并制定水资源可持续发展政策和落实政策实际应实施的必要步骤。

根据情况，支持地方、国家和跨境流域水资源和生态环境的可持续、综合一致和参与性的管理。

Le «Pacte pour une meilleure gestion de bassin»:

Réunis à Marseille le 16 mars 2012, les représentants présents de 71 organismes de bassin de rivière, de lac ou d'aquifère, de différentes parties du monde ont adhéré à ce Pacte pour une meilleure gestion des bassins nationaux et transfrontaliers Afin de mieux répondre aux défis de la planète.

« the World Pact for better basin management »

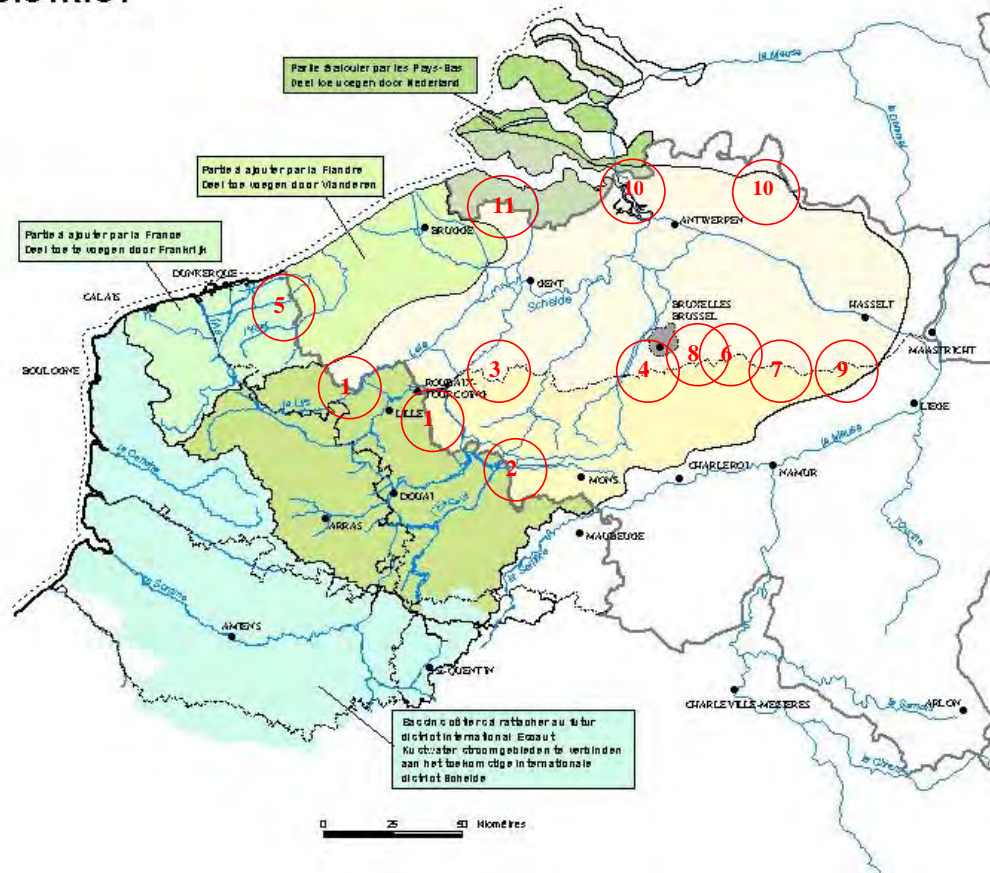

Officially signed in Marseilles on 16 March 2012 by 71 basin organizations from the whole world, « The Pact » is proposed to the signature of all basin organizations worldwide that could not be present in Marseilles.

International Network Of Basin Organizations

Rejoignez en Hongrie pour la 7^{ème} Assemblée Générale

Le 7^{ème} Assemblée Générale du Réseau International des Organismes de Bassin (RIOB) se tiendra à Budapest, en Hongrie, les 13 et 14 mai 2014.

- la préservation et la gestion de l'eau
- la coopération transfrontalière
- la gouvernance des bassins
- la mise en œuvre de la Directive-cadre sur l'eau

Le RIOB est une organisation internationale qui a pour but de promouvoir la coopération transfrontalière entre les bassins de drainage voisins et de travailler avec les autres organisations intéressées, le Réseau International des Organismes de Bassin (RIOB), à la gestion des bassins et à la coopération transfrontalière.

Nos idées progressent, mobilisons-nous pour faire connaître nos résultats à Istanbul en mars 2015 !

La lettre du RIOB

Une meilleure gestion de bassin pour faire face aux grands défis mondiaux

Fortaleza, au Brésil, accueillera la prochaine 9^{ème} Assemblée Générale Mondiale du Réseau International des Organismes de Bassin (RIOB) du 12 au 16 août 2013.

Tous les trois ans, l'Assemblée Générale est l'occasion d'échanger entre représentants des Organismes de Bassin de Monde entier, de mobiliser les réseaux régionaux et de débattre sur les enjeux principaux de la gestion de l'eau.

Cinq Tables Rondes sont programmées :

- Les cadres Institutionnels d'intervention des Organismes de Bassin ;

www.riob.org

La lettre du RIOB

VII^{ème} Forum Mondial de l'Eau Daegu-Gyeongju 13 - 17 avril 2015

Le VII^{ème} Forum Mondial de l'Eau se tiendra à Daegu-Gyeongju du 13 au 17 avril 2015, à l'invitation du Gouvernement Sud-Coréen et du Conseil Mondial de l'Eau.

C'est un rendez-vous majeur à ne pas manquer !

Le Réseau International des Organismes de Bassin - RIOB, qui a déjà participé activement aux 6 Forums précédents, appelle à la mobilisation de ses Membres et Observateurs pour venir y présenter leurs solutions, échanger et débattre pour développer et améliorer la gestion par bassin et la coopération transfrontalière dans le Monde.

Depuis les années 90, la gestion par bassin des fleuves, des lacs ou des aquifères a connu un développement rapide dans de nombreux pays, qui en font la base de leur législation nationale ou l'expérimentation dans des bassins pilotes. La Directive-Cadre européenne sur l'Eau de 2000, par exemple, impose une gestion par Districts Hydrographiques nationaux ou internationaux aux 28 Etats-Membres et aux Pays candidats de l'Union Européenne.

La gestion des bassins des 276 fleuves et de centaines d'aquifères transfrontaliers est de plus en plus prise en compte au sein de Commissions, d'Autorités ou d'Organisations Internationales de Bassin, qui se créent ou se renforcent sur tous les continents.

Des progrès importants ont été réalisés : la gestion par bassin ça marche, quand il y a une forte volonté de tous les acteurs !

Le Forum de Daegu-Gyeongju sera l'occasion de faire le point de ces avancées et de présenter nos solutions pour surmonter les difficultés que subissent.

Le RIOB, conjointement avec l'OCDE, l'UNESCO et la CEE-ONU, s'implique plus particulièrement, en partenariat avec toutes les autres Organisations intéressées, dans les thèmes du Forum traitant de l'adaptation aux effets du changement climatique, de la coopération pour réduire les conflits et améliorer la gestion des eaux transfrontalières, de la gouvernance, ainsi que de plusieurs processus régionaux.

Nos idées progressent, mobilisons-nous pour faire connaître nos solutions en Corée du Sud en avril 2015 !

كُتَيْبُ الإِدَارَةِ الْمُتَكَامِلَةِ لِلْمَوَارِدِ الْمَائِيَّةِ فِي أَحْوَاضِ الْأَنْهَارِ وَالْبَحِيرَاتِ وَطَبَقَاتِ الْمِيَاهِ الْجَوْفِيَّةِ الْعَابِرَةِ لِلْحُدُودِ

مارس ٢٠١٢

Avec nos partenaires,

**Nous avons en préparation
pour 2014 et 2015 :**

- **Un troisième et un quatrième manuels:**
 - ❖ **sur l'adaptation aux effets du changement climatique,**
- ET,**
- ❖ **sur la protection et la restauration**
des écosystèmes aquatiques dans les bassins ■

With our partners,

We are preparing
in 2014 and 2015 :

■ 3rd and 4th « Handbooks »:

❖ On adaptation measures to face climate change effects,

AND,

❖ On protection and restauration of Aquatic ecosystems,

....Of course at basin level!!

You are invited to participate

in the drafting of our next two **“Handbooks on Basin Management”**, which will be published next year on the occasion of the World Water Forum in Daegu-Gyeongju in Korea.

Their topics will be:

1. Measures for adapting to the effects of climate change in river basins, and,
2. protection, restoration and management of water/aquatic ecosystems and the services they provide in the basins of rivers and lakes.

These publications, like the previous handbooks of 2009 and 2012, will be based on the practical experience and know-how gained in the field in the basins worldwide.

A photograph showing four hands of different skin tones (two darker, two lighter) holding a continuous, circular stream of water. The water is splashing and creating droplets, forming a ring around the center of the image. The background is plain white.

Water for our Future

3 ACTION GOALS

The Future We Want

1. Water Security for All

- 1.1 Enough Safe Water for All
- 1.2 Integrated Sanitation for All
- 1.3 Adapting to Change Managing Risk and Uncertainty for Resilience and Disaster Preparedness
- 1.4 Infrastructure for Sustainable Water Resource Management and Services

2. Water for Development and Prosperity

- 2.1 Water for Food
- 2.2 Water for Energy
- 2.3 Water and Cities

3. Water for Sustainability: Harmonizing Humans and Nature

- 3.1 Green Growth, Water Stewardship and Industry
- 3.2 Managing and Restoring Ecosystems for Water Services and Biodiversity
- 3.3 Ensuring Water Quality from Ridge to Reef
- 3.4 SMART Implementation of IWRM

4. Constructing Feasible Implementation Mechanisms

- 4.1 Economics and Financing for Innovative Investment
- 4.2 Effective Governance: Enhanced Political Decisions, Stakeholder Participation and Technical Information
- 4.3 Cooperation for Reducing Conflict and Improving Transboundary Water Management
- 4.4 Water Cultures, Justice and Equity
- 4.5 Enhancing Education and Capacity Building

ACTION TOOL

Engines for Change

T4.3 - Facilitating Cooperation for reducing conflict and improving transboundary water management.

- Hydro-diplomacy, Multilevel transboundary governance and transparency,
- International Water Law and regional agreements,
- Mandate and roles of Transboundary Basin and Aquifer Organizations,
- Data exchange and joint monitoring in transboundary basins,
- Assessment of benefits of transboundary cooperation, Water, Food, Energy Nexus as a Driver for Transboundary Cooperation,
- Funding of the transboundary cooperation and joint investments

UNECE

IUCN

INBO – Design Group coordinator

SIWI

UNESCO- IHP/ISARM

The GEF

GCI

T1.3.6 - Adaptation to the effects of climate changes on water resources and hydrological cycles

T3.4.1 - Integrated joint management of rivers, lakes and aquifers at basins level: An efficient approach for multilevel and cross sectorial better water sharing and protection

T4.2.3 - Strengthening basin governance for efficient water resources management at all the relevant scale

**T4.5.5 - Facing the changes in due time:
To be able to adapt water resources management in river basins, specific training of the staffs and all the stakeholders is a prerequisite!**

Year 2013 – Année 2013

Opinion sur les comptes annuels

Nous avons effectué notre audit selon les normes professionnelles applicables en France ; ces normes requièrent la mise en œuvre de diligences permettant d'obtenir l'assurance raisonnable que les comptes annuels ne comportent pas d'anomalies significatives. Un audit consiste à examiner, par sondages, les éléments probants justifiant les données contenues dans ces comptes. Il consiste également à apprécier les principes comptables suivis et les estimations significatives retenues pour l'arrêté des comptes et à apprécier leur présentation d'ensemble. Nous estimons que nos contrôles fournissent une base raisonnable à l'opinion exprimée ci-après.

Nous certifions que les comptes annuels sont, au regard des règles et principes comptables français, réguliers et sincères et donnent une image fidèle du résultat des opérations de l'exercice écoulé ainsi que de la situation financière et du patrimoine de l'association à la fin de cet exercice.
