L'ordre du jour de cette réunion du Bureau portera sur:

- L'ordre du jour, les résolutions et la « Déclaration » de notre AGM 2013,
- La composition du nouveau Bureau de Liaison du RIOB 2013 – 2016,
- L'approbation du choix du Mexique pour l'Assemblée Générale en 2016,
- Candidatures pour recevoir l'Assemblée Générale Mondiale du RIOB en 2019,
- La prochaine conférence « EURO – RIOB » en Novembre 2013 à Plovdiv,
- Les manifestations 2013 et 2014 organisées par le RIOB ou associant le RIOB,
- La participation du RIOB au VIIème Forum Mondial de l'Eau de Daegu,
- Création d'un Réseau de bassins pilotes transfrontaliers pour l'adaptation au changement climatique,
- Les signatures du « Pacte Mondial pour une meilleure gestion des bassin »,
- Euro-RIOB: le Groupe de Coordination Stratégique (SCG) de la DCE – UE,
- L'initiative de l'OCDE sur la Gouvernance de l'eau,
- Création d'une « task Force » pour l'appui aux organismes de bassin ZV-UE,
- Les nouveaux manuels de la gestion de bassin en 2014 et 2015,
- Projet d'accord entre le RIOB et The Great Rivers Partnership,
- L'initiative de création d'un passeport de « Citoyen de Bassin »,
- Le Projet de réseau de membres de Comités de Bassin « AQUAMADRE »,
- « INBO ACADEMY »,
- Partenariat avec le Centre Européen de Restauration des Rivières.....

The agenda of this Bureau meeting will deal with:

- The agenda, resolutions and the "Declaration" of our World General Assembly,
- Composition of the new INBO Liaison Bureau 2013 – 2016,
- Approval of the choice of Mexico for hosting the General Assembly in 2016,
- Candidatures to host the World General Assembly of INBO in 2019,
- The next "EUROPE – INBO" conference in November 2013 en Plovdiv (Bulgaria),
- The events organized by INBO or associating INBO in 2013 – 2014,
- INBO participation in the preparation of the 7th World Water Forum,
- Project for establishing a network of pilot transboundary basins to test measures for adapting to climate change
- Signatures of the "World Pact for better basin management"
- Europe-INBO: Strategic Coordination Group (SCG) of the European Union WFD,
- OECD initiative on Water Governance,
- Project for creating a "task force" for strengthening of basin organizations in EU-NA
- Publications of new handbooks on basin management in 2014 and 2015,
- Project for an agreement between and The Great Rivers Partnership,
- Initiative to create a passport of "Basin Citizens",
- Project of a network of Basin Committee members "AQUAMADRE",
- "INBO ACADEMY",
- INBO commitment with the European Center for River Restoration (ECRR)

**Reference: Committee on Non-Governmental Organizations
2007 Resumed session (14-18 May 2007)**

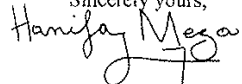

Dear Mr. Jean-Francois Donzier,

We are pleased to inform you that the Committee on Non-Governmental Organizations at its 2007 resumed session, on 14-18 May 2007, has decided to recommend that your organization "Réseau International des Organismes de Bassin" be granted special consultative status.

Please note that this recommendation is still subject to the approval of the Economic and Social Council, which will consider and take action on the Committee's recommendation at its substantive session, scheduled for 2-27 July 2007 in Geneva.

Once taken, we shall inform you of the Council's final decision on your application.

Sincerely yours,

Hanifa Mezoul, Chief

The « World Pact for better basin management »

« Pacto para uma melhor gestão das bacias »

Le « Pacte pour une meilleure gestion de bassin »

International Network of Basin Organizations

International Office For Water PARIS-FRANCE

Red Internacional dos Organismos da Bacia

Pacto Mundial para uma melhor gestão das bacias

Nós, representantes de organismos de bacia de rios, de lagos ou de aquíferos, em diferentes partes do mundo, aderimos ao presente "Pacto Mundial para uma melhor gestão das bacias", para desenvolver a gestão integrada e solidária dos recursos em água, à escala das bacias nacionais, regionais e transfronteiriças e responder aos desafios que o nosso planeta deve combater.

Effectivamente, temos de alcançar os Objectivos do Milénio para o Desenvolvimento, garantir um "crescimento verde" e enfrentar as mudanças globais ligadas ao aumento rápido da população mundial, às migrações, à urbanização crescente, à mudança climática, etc.

Para 2: **DECLARAÇÃO PRELIMINAR**

- Que as bacias dos rios, lagos e aquíferos são os territórios apropriados para a organização da gestão solidária dos recursos em água;
- Que os diferentes ecossistemas presentes nas bacias vertentes têm uma grande importância tanto para a biodiversidade como para os serviços ambientais prestados, nomeadamente para a regularização dos ciclos hidrológicos e a prevenção dos riscos, bem como para a depuração das poluições;

- Que a criação e o desenvolvimento de redes de diálogo, a cooperação, a troca de experiências e a prevenção potenciais conflitos são essenciais para a gestão sustentável dos recursos em água;
- Que a criação e o desenvolvimento de redes de diálogo, a cooperação, a troca de experiências e a prevenção potenciais conflitos são essenciais para a gestão sustentável dos recursos em água;
- Que a criação e o desenvolvimento de redes de diálogo, a cooperação, a troca de experiências e a prevenção potenciais conflitos são essenciais para a gestão sustentável dos recursos em água;

International Network of Basin Organizations

World Pact for better basin management

- The establishment and strengthening of basin organizations in best suited forms, especially international cooperation, facilitates dialog, cooperation, information exchange and implementation of joint projects and actions, for sharing benefits, anticipating the future and preventing potential conflicts between the stakeholders concerned;
- It is necessary to increase regional integration by harmonizing policies and laws and by implementing the regional programmes at common interest needed to improve surface and groundwater resources management in a sustainable way;

Gathered in Marrakech on the occasion of the 9th World Water Forum on 16 March 2012, we, representatives of river, lake or aquifer basin organizations, from different parts of the world, subscribe to the present "World Pact for better basin management" in view of the development of integrated and joint water resources management at the national, regional and transboundary level to meet the challenges facing our planet.

De facto, temos de alcançar os Objectivos do Desenvolvimento e garantir um "crescimento verde" e enfrentar as mudanças globais ligadas ao aumento rápido da população mundial, às migrações, à urbanização crescente, à mudança climática, etc.

Pact

Red Internacional de Organismos de Cuenca

Pacto Mundial para una mejor gestión de las cuencas

Reunidos en Marrakech con motivo del IX Foro Mundial del Agua de marzo de 2012, nosotros, representantes de organismos de cuencas de ríos, lagos o acuíferos de distintas partes del mundo, adherimos al presente "Pacto Mundial para una mejor gestión de las cuencas" con el fin de que se desarrollen la gestión integrada de los recursos hídricos a escala de cuencas y acuíferos nacionales, regionales y transfronterizas, y así responder a los retos a los que debe enfrentarse nuestro planeta.

De hecho, tenemos de alcanzar los Objetivos de Desarrollo del Milenio y garantizar un "crecimiento verde" y enfrentar a las cambios globales relacionados con el rápido crecimiento de la población mundial, la migración, la urbanización creciente, el cambio climático, etc.

Pact

- As bacias de rios, lagos e aquíferos transfronteiriços têm de ter uma atenção especial (a) dos organismos de cuenca, de forma mais apropriada em particular de comissões transnacionais, autoridade e outros organismos de cuenca transnacionais, facilitam o diálogo, a cooperação, o intercâmbio de informação e a implementação de acções e projectos conjuntos, de modo a permitir partilhar os benefícios, antecipar o futuro e prevenir os conflitos potenciais entre as partes interessadas;
- É necessário reforçar a integração regional mediante a articulação das políticas e legislativas e mediante a puesta em marcha de programas regionais de interesse comum imprescindíveis para melhorar a gestão dos recursos hídricos sustentáveis e superficiais e recicar os recursos;
- É necessário criar o melhor modelo dedicado à gestão de recursos hídricos e medios acuícolas, e de modo geral do "Gran Ciclo" do água;
- É necessário elaborar e reforçar os mecanismos administrativos para facilitar às instituições e multilaterais em este sector estratégico da gestão de las cuencas;
- Os programistas da sociedade civil e as autoridades locais têm de ser encorajados a melhorar e implicar-se na gestão de las cuencas desde vãos;
- É necessário reforçar a cooperação entre os organismos de cuenca do mundo inteiro e de cada região para facilitar a transferência de experiências e do conhecimento de las melhores práticas com respeito à gestão de cuenca e sua adaptação em los diferentes contextos.

De hecho, tenemos de alcanzar los Objetivos de Desarrollo del Milenio y garantizar un "crecimiento verde" y enfrentar a las cambios globales relacionados con el rápido crecimiento de la población mundial, la migración, la urbanización creciente, el cambio climático, etc.

Pact

Réseau International des Organismes de Bassin

Pacte Mondial pour une meilleure gestion des bassins

Nous, représentants d'organismes de bassin de fleuves, de lacs ou d'aquifères, de différentes parties du monde, adhérons au présent "Pacte Mondial pour une meilleure gestion des bassins", en vue de développer la gestion intégrée et solidaire des ressources en eau, à l'échelle des bassins nationaux, régionaux et transfrontières, et répondre aux défis que notre planète doit affronter avec succès.

Effectivement, nous devons atteindre les Objectifs du Millénaire pour le Développement, assurer une "croissance verte" et faire face aux changements globaux liés à l'augmentation rapide de la population mondiale, aux migrations, à l'urbanisation croissante, au changement climatique, etc.

Pact

- Que os bacias dos rios, lagos e aquíferos transfronteiriços devem ter uma atenção especial (a) dos organismos de cuenca, de forma mais apropriada em particular de comissões transnacionais, autoridade e outros organismos de cuenca transnacionais, facilitam o diálogo, a cooperação, o intercâmbio de informação e a implementação de acções e projectos conjuntos, de modo a permitir partilhar os benefícios, antecipar o futuro e prevenir os conflitos potenciais entre as partes interessadas;
- É necessário reforçar a integração regional mediante a articulação das políticas e legislativas e mediante a puesta em marcha de programas regionais de interesse comum imprescindíveis para melhorar a gestão dos recursos em água sustentáveis e superficiais e recicar os recursos;
- É necessário criar o melhor modelo dedicado à gestão de recursos hídricos e medios acuícolas, e de modo geral do "Gran Ciclo" do água;
- É necessário elaborar e reforçar os mecanismos administrativos para facilitar às instituições e multilaterais em este sector estratégico da gestão de las cuencas;
- Os programistas da sociedade civil e as autoridades locais têm de ser encorajados a melhorar e implicar-se na gestão de las cuencas desde vãos;
- É necessário reforçar a cooperação entre os organismos de cuenca do mundo inteiro e de cada região para facilitar a transferência de experiências e do conhecimento de las melhores práticas com respeito à gestão de cuenca e sua adaptação em los diferentes contextos.

Effectivement, nous devons atteindre les Objectifs du Millénaire pour le Développement, assurer une "croissance verte" et faire face aux changements globaux liés à l'augmentation rapide de la population mondiale, aux migrations, à l'urbanisation croissante, au changement climatique, etc.

Pact

Le «Pacte pour une meilleure gestion de bassin» « the World Pact for better basin management »

«Глобальный Пакт о повышении эффективности управления на уровне бассейна»

Собралось 16 марта 2002 года в Марселе по случаю 6го Всемирного Водного Форума, мы, представители Бассейновых организаций по всему миру, договорились о создании системы на уровне частей мира, первоначально под названием «Глобальный Пакт о повышении эффективности управления на уровне бассейна» с целью развития интегрированного и совместного управления водными ресурсами на международном, региональном и трансграничном уровнях для решения проблем нашей планеты.

Мы должны достичь своей главной цели в области развития, обеспечить экологическую ориентированность, а также должны признать необходимость изменений в силу увеличенного доступа к водным ресурсам, миграции, растущей урбанизации, изменения климата и т.д.

Наша первоочередная задача состоит в том, чтобы обеспечить доступность и качество водных ресурсов и повысить эффективность использования водных ресурсов в сельской и городской местности для улучшения гигиены и здоровья и предотвращения инцидентов, гарантировать экологическую устойчивость, развивать промышленность, энергетическую, транспортную по воздуху, морю и реке и сельскохозяйственную, предотвращать и адаптироваться к изменению климата, чтобы избежать всемирных катастроф, поддерживать высокие стандарты и в целом, защитить биологическое разнообразие, озоносферный слой и т.д.

Все эти задачи являются сложными и не могут быть решены на организационном или локальном уровне, изолированно друг от друга. Поэтому, в поиске решений, должны участвовать все заинтересованные стороны, порождая в свою очередь и совместно, в сотрудничестве с регионами бассейновых организаций в целях достижения устойчивого использования водных ресурсов.

ЧАСТЬ I
Предварительные договоренности
Мы, участники Пакта, признаем, что:

- Создание всемирной интегрированной системы управления водными ресурсами, которые были рассмотрены в Дублине (1991), Рио-де-Жанейро (1992), Париже (1998), Гагге (2000), Нью-Йорке (2002), Киото (2003), Мадриде (2006) и Стэнбурге (2009) является целью.
- Бассейновый рек, озер и подземных водных слоев является тем же порогом, где надо проводить совместные управленческие программы, которые способствуют и другим важным действиям, влияющим на водные ресурсы.
- Различные экосистемы, находящиеся в бассейнах рек, имеют важную роль как для биоразнообразия, так и в экологическом

услугу, для регулирования гидрологических циклов и предотвращения инцидентов, в том числе для борьбы с загрязнением.

Необходимо уделять особое внимание Бассейновым трансграничным рек, озер и подземных водных слоев и признать трансграничные бассейны совместно управляемыми.

Создание и укрепление Бассейновых организаций в наиболее уязвимых регионах, особенно международных, комиссий, управлений и других трансграничных Бассейновых организаций, способствует диалогу, сотрудничеству, обмену информацией и координированным совместным проектам и действиям в целях совместного использования биоресурсов, предотвращения будущих и предотвращения потенциальных конфликтов между заинтересованными сторонами.

Необходимо поощрять региональную интеграцию путем создания комиссий и законодательства и содействия региональным программам, представляющим взаимный интерес, как механизмы управления для координации усилий в области водных ресурсов на трансграничном уровне.

Необходимо создать или укрепить институциональные, управленческие и финансовые структуры в странах и регионах, имеющих доступ к водным ресурсам и в целях поддержки доступности или использования водных ресурсов в этой стратегической области бассейнового управления.

Необходимо больше общаться и взаимодействовать в управлении водными ресурсами, так как трансграничные стороны заинтересованы в совместном развитии и устойчивости.

Необходимо расширить сотрудничество между Бассейновыми организациями между собой и в целом, и в частности, чтобы создать единый подход и механизмы в различных методах в области управления Бассейновыми рек, озерными и подземными водными ресурсами.

ЧАСТЬ II
Общая цель и основные организационные принципы

Признавая необходимость в сильной интегрированной системе, представляющей «Глобальный Пакт о повышении эффективности управления на уровне бассейна», мы договорились о создании системы на уровне частей мира, первоначально под названием «Глобальный Пакт о повышении эффективности управления на уровне бассейна», с целью развития интегрированного и совместного управления водными ресурсами на международном, региональном и трансграничном уровнях для решения проблем нашей планеты.

Мы договорились о создании системы на уровне частей мира, первоначально под названием «Глобальный Пакт о повышении эффективности управления на уровне бассейна», с целью развития интегрированного и совместного управления водными ресурсами на международном, региональном и трансграничном уровнях для решения проблем нашей планеты.

流域组织国际网

为更好管理流域的全球公约

我们代表全球各地的河流、湖泊或含水层的流域组织，加入《为更好管理流域的全球公约》，旨在对国家、地区或跨流域的水资源进行综合管理。事实上，我们必须实现千年发展目标，确保“绿色增长”，应对因全球人口快速增长、移民、城市化的日益发展、气候变化引起的全球变化。我们将通过努力，提高自然资本，可靠地满足城市和农村饮用水的需求，改善卫生与健康条件，预防流行病，确保粮食自给，工业发展和能源生产，水事运输，旅游与休闲娱乐，预防并应对各种污染，扶持渔业，从更广泛地来说，保护水生环境的生物多样性。

所有这些挑战都不能局部或区域性处理，也不能分开单独解决。反之，寻找解决方案应采取所有相关各方通过综合一致的方法对水文单元进行协商，以实现水资源的可持续发展。

第一部分：预先宣言

我们必须不断引入和/或创新形式的水资源治理，且目前为止召开的会议主要有都柏林(1991年)、里约热内卢(1992年)、巴黎(1998年)、海牙(2000年)、约翰内斯堡(2002年)、京都(2003年)、墨西哥(2003年)和里斯本(2006年)。

河流、湖泊和含水层是水资源、水生生态系统和所有与水相关业务联合管理的合适区域。流域中现有的各种生态系统对于生物多样性还是环境服务都具有重大意义，尤其是对水文循环的调节、风险的防范及污染净化来说。

Le «Pacte pour une meilleure gestion de bassin»:

Réunis à Marseille le 16 mars 2012, les représentants présents de 71 organismes de bassin de rivière, de lac ou d'aquifère, de différentes parties du monde ont adhéré à ce Pacte pour une meilleure gestion des bassins nationaux et transfrontaliers Afin de mieux répondre aux défis de la planète.

« the World Pact for better basin management »

Officially signed in Marseilles on 16 March 2012 by 71 basin organizations from the whole world, « The Pact » is proposed to the signature of all basin organizations worldwide that could not be present in Marseilles.

Organizations**

International Network of Basin Organizations

World Pact for better basin management

We, representatives of river, lake or aquifer basin organizations, from different parts of the world, subscribe to the present **"World Pact for better basin management"** in view of the development of integrated and joint water resources management at national, regional and transboundary level to meet the challenges facing our planet.

Indeed, we must achieve the Millennium Development Goals and ensure "green growth" and face the global changes associated with the rapid world population growth, migration, increasing urbanization, climate change, etc. Our efforts should indeed allow fighting against natural disasters, reliably meeting the drinking water needs of urban and rural populations to improve hygiene and health and prevent epidemics, securing food sufficiency, developing industry, energy production, waterways transport, tourism and recreational activities, preventing and controlling pollution of all kinds to preserve aquatic ecosystems, support fish production and more generally preserve the biodiversity of water-related environments.

All these stakes cannot be tackled on a sectoral or local basis, or separately from each other. The search for solutions must instead involve all stakeholders in an integrated and joint approach, organized in cooperation with the river basin units and for the sustainable use of water resources.

PART 1 : PREAMBLE

Through our commitment to this Pact, we recognize that:

- It is becoming imperative to introduce and/or permanently strengthen new forms of governance of water resources, such as those already recommended at Dublin (1991), Rio (1992), Paris (1998), The Hague (2000), Johannesburg (2002), Kyoto (2003), Mexico (2006) and Istanbul (2009) in particular;
- River, lake and aquifer basins are the relevant territory for the organization of joint management of water resources, aquatic ecosystems, and all water-related activities;
- The different ecosystems found in river basins are very important both for biodiversity and environmental services, including for the regulation of the hydrological cycles and risk prevention, as well as for the treatment of pollution;
- The basins of transboundary rivers, lakes and aquifers are to be paid special attention and be jointly managed by the riparian Countries;

- The establishment and strengthening of basin organizations in best suited forms, especially international commissions, authorities or other transboundary basin organizations, facilitate dialogue, cooperation, information exchange and implementation of joint projects and actions, for sharing benefits, anticipating the future and preventing potential conflicts between the stakeholders concerned;
- It is necessary to increase regional integration by harmonizing policies and laws and by implementing the regional programmes of common interest needed to improve surface and groundwater resources management at basin level;
- It is necessary to create or strengthen the funding dedicated to the management of water resources and aquatic environments and generally of the "great water cycle";
- It is useful to develop or strengthen federating frameworks for facilitating bilateral or multilateral initiatives in this strategic field of basin management;
- The stakeholders of the civil society and the local authorities should be better associated and involved in the management of the basins where they live;
- It is necessary to increase cooperation among basin organizations around the world and in each region to facilitate the sharing of experience and know-how on best practices in river basin management and their adaptation to different contexts.

PART 2 : COMMITMENTS OF BASIN ORGANIZATIONS

Recognizing the need of urgent actions, We, representatives of the organizations, signatories of the **"World Pact for better basin management"**, express our will, in what comes under our statutory powers and within the limits of our own resources, to commit ourselves alongside our national governments and international institutions for:

- acting to improve water governance, facilitating the creation of basin organizations where they do not exist, strengthening existing organizations, helping the concerned authorities develop useful reforms and policies for sustainable water management and the programmes needed for their implementation in the field;
- supporting processes of sustainable, integrated, joint and participative management of water resources and environments organized on the appropriate scale of local, national or transboundary basins according to the case;

Pacte Mondial pour une meilleure gestion des bassins

Le Pacte Mondial pour une meilleure gestion des bassins est un engagement volontaire des bassins de bassin pour améliorer la gestion de l'eau et des écosystèmes aquatiques. Il vise à promouvoir la coopération et le dialogue entre les bassins de bassin pour améliorer la gestion de l'eau et des écosystèmes aquatiques.

Objectifs :

- Promouvoir la coopération et le dialogue entre les bassins de bassin pour améliorer la gestion de l'eau et des écosystèmes aquatiques.
- Encourager les bassins de bassin à travailler ensemble pour améliorer la gestion de l'eau et des écosystèmes aquatiques.
- Appuyer les bassins de bassin dans leur travail pour améliorer la gestion de l'eau et des écosystèmes aquatiques.
- Promouvoir la coopération et le dialogue entre les bassins de bassin pour améliorer la gestion de l'eau et des écosystèmes aquatiques.

The "Twin Basins project", supported by the European Union, give a sponsorship for travels and accomodation, to basin organizations which sign twinning agreement between them to exchange their staffs.

In 4 years, the project has obtained very interesting results:

- 41 financially supported twinning agreements,
- more than 100 missions for the exchange of experience,
- involving 70 Basin Organizations from 42 countries.

Twinning between Basins Organizations

Spain - Italy

Twinning between the Júcar and Arno Basin Authorities

The Júcar River Basin Authority (JRBA) has been since 1934 an autonomous organization with a wide experience regarding integrated water resources management gained in several decades.

In past years, the JRBA realized twinning agreements with other river basin organizations from countries in Europe (Greece, Romania and Bulgaria), Central Asia (Uzbekistan) and Africa (Morocco); some of those in the context of **the Twinbasin Project** (2007), with the support of the Mediterranean Network of Basin Organizations (MENBO).

Following first contacts during the 8th EUROPE-INBO Conference in Mégève (2010), the JRBA has signed a twinning agreement with **the Authority of the Arno River Basin (Italy)**.

The hydrological characteristics of the Arno and Júcar River Basins are similar.

Both river basin organizations collaborated during one year (2011-12), working on the technical aspects of the implementation of the Water Framework and Flood Directives. During the World Water Forum, the JRBA presented a comparative analysis on the state of compliance with the Good Status goals for Water Bodies to be fulfilled by 2015 in several Euro-Mediterranean river basins: Júcar, Duero (Spain), Arno (Italy) and all the French basins.

The experience of the twinning has been satisfying and interesting for the involved parties. Both organizations depending on the national central administration, count on similar management organs and instruments.

However, the methodology used by each country to implement the European directives depends on the internal administrative structure of each Member State, which sometimes made difficult a real comparison of the proposed works during the twinning, especially

regarding the economic analysis, cost recovery, program of measures and its financing.

МСБ
ИНФОРМАЦИОННЫЙ БЮЛЛЕТЕНЬ

6-й Всемирный водный форум

Приезжайте на Форум и подпишите «Глобальный Пакт о повышении эффективности управления на уровне бассейна»!

6-й Всемирный водный форум будет проводиться в М.Марселе с 12 по 17 марта 2012 года по приглашению Правительства Франции и Всемирного Водного Совета.

Это важно и событие, ко торое нельзя пропустить!

Международная сеть бассейновых организаций - МСБО призывает членов и наблюдателей сети мобилизоваться и приехать в Марсель, чтобы представить свои решения, обменяться опытом и обсудить вопросы по развитию и улучшению бассейнового управления трансграничного сотрудничества в мире.

С 90-х годов управление на уровне бассейнов рек, озер или водохозяйственных сооружений во многих странах ускоренное развитие, в результате оно либо стало основой национальных законодательств этих стран, либо было внедрено на национальном уровне бассейнов.

Европейская Водная рамочная директива 2000 года, к примеру, обязывает 27 стран-членов и стран-кандидатов Европейского Союза обеспечивать эффективное управление национальными или международными органами бассейновых рек.

Управление трансграничными бассейнами 276 рек и озер водохозяйственных сооружений во все больше принимается во внимание в рамках комиссий, управлений или международных бассейновых организаций, которые созданы или действуют на всех континентах.

Были сделаны значительный прогресс. Бассейново управление работает там, где все стейкхолдеры серьезно в нем заинтересованы!

Марсельский форум предоставит возможность поделиться достигнутыми прогрессом и представить свои решения по преодолению трудностей, а также подписать «Глобальный Пакт о повышении эффективности управления на уровне бассейнов».

Международный Комитет Форума доверил МСБО, ЮНЕСКО, ОЭСР, ЕЭК ООН и Европейской Комиссии координацию целей, которые направлены на достижение сотрудничества в мире, улучшение руководства и качества Бассейнового управления в Европе в партнерстве со всеми другими заинтересованными организациями.

Мы полны энтузиазма, так давайте же мобилизуемся, чтобы представить свои решения в Марселе в марте 2012 года!

La lettre du RIOB

Une meilleure gestion de bassin pour faire face aux grands défis mondiaux

Participer, se préparer, accueillir le prochain 9th Assemblée Générale Mondiale du Réseau International des Organismes de Bassins (RIOB) du 12 au 16 août 2013.

Les membres du Réseau International des Organismes de Bassins (RIOB) ont l'occasion d'échanger avec leurs collègues des Organismes de Bassins du monde entier, de discuter des enjeux régionaux et de débiter sur les enjeux prioritaires de la gestion de l'eau.

Cinq thèmes feront l'objet d'un programme :

- Les cadres institutionnels d'intégration des Organismes de Bassins
- L'adaptation aux effets du changement climatique et la prévention des phénomènes extrêmes d'inondations et de sécheresses :
- La participation des pouvoirs locaux, des usagers de l'eau et du public, des des Comités de Bassin
- La gestion des rivières, des lacs et des aquifères transfrontalières ;
- Le financement de la gestion de l'eau et des Organismes de Bassins.

Une sélection thématique sera couverte en anglais, en espagnol, en français et en portugais.

Coopération et l'Assemblée Générale Mondiale de l'IOB est organisé par le Réseau International des Organismes de Bassins (RIOB) et le Programme de Bassins de l'UNEP, avec l'appui des Administrations de l'eau et des organisations associées par le Centre Intégrés des Ressources en Eau par l'Institut National de l'Eau, qui propose une et présente une communication de hauts experts internationaux de l'eau.

Mars 2013 - n°21

INBO Newsletter

Better basin management to face the great global challenges

Familiarize to Brazil will host the 9th World General Assembly of the International Network of Basin Organizations (INBO) from 12 to 16 August 2013.

Every three years, the General Assembly is an opportunity to exchange between representatives of Basin Organizations worldwide, to identify the regional needs and to discuss about the main challenges of water management.

This time Brazil will be the host.

Key topics to be discussed:

- Institutional frameworks for the action of Basin Organizations
- Adaptation to climate change and prevention of extreme flood and drought phenomena
- Participation of local authorities, water users and the public, role of Basin Committees
- Management of transboundary rivers, lakes and aquifers
- Funding for Water Management and River Basin Organizations

There will be simultaneous translation into English, Spanish, French and Portuguese.

Integration to the World General Assembly of INBO is the result of a cooperation between the International Network of Basin Organizations and the Programme of Basins of the UNEP, with the support of the Administrations of water and organizations associated by the Center Integrated Resources in Water by the National Institute of Water, which proposes and presents a communication of high international experts of water.

www.inbo-news.org

April 2013 - n° 21

La carta de la RIOC

Una mejor gestión de las cuencas para enfrentar los grandes desafíos mundiales!

Familiarize to Brazil will host the 9th World General Assembly of the International Network of Basin Organizations (INBO) from 12 to 16 August 2013.

Cada tres años, la Asamblea General de los representantes de organizaciones de cuencas mundiales, es una oportunidad para intercambiar experiencias y discutir los principales desafíos de la gestión del agua. Este año Brasil será el anfitrión.

Los temas clave a ser discutidos son:

- Los marcos institucionales de acción de los Organismos de Cuencas
- La adaptación a los efectos del cambio climático y la prevención de los fenómenos extremos de inundaciones y sequías
- La participación de las autoridades locales, usuarios del agua y del público, papel de los Comités de Cuencas
- La gestión de los ríos, lagos y acuíferos transfronterizos
- La financiación de la gestión del agua y de los Organismos de Cuencas

Una selección temática será cubierta en inglés, español, francés y portugués.

La integración a la Asamblea General Mundial de la INBO es el resultado de la cooperación entre el INBO y el Programa de Cuencas de la ONU, con el apoyo de las Administraciones de agua y organizaciones asociadas por el Centro Integrado de Recursos Hídricos por el Instituto Nacional de Agua, que propone una y presenta una comunicación sobre los principales desafíos mundiales.

4. La collection des manuels sur la gestion intégrée des bassins : Avec déjà deux parutions en 2009 et 2012

Déjà, en 2009 ...

**«Le Manuel de gestion intégrée par bassin»
a été un grand succès ...
Il a été traduit en neuf langues!**

En 2012,

Nous avons publié le “Manuel”

pour la gestion des bassins transfrontaliers,

en cours de traduction aussi en arabe et en chinois .

Avec nos partenaires,

Nous avons en préparation pour 2014 et 2015 :

- Un troisième et un quatrième manuels:

- ❖ sur l'adaptation aux effets du changement climatique,

ET,

- ❖ sur la protection et la restauration

des écosystèmes aquatiques dans les bassins ■

We certify that the yearly statements are regular and sincere, in accordance with French accounting rules and principles, and give a faithful idea of the result of the past fiscal year and of the financial situation and assets of the association

Opinion sur les comptes annuels

Nous avons effectué notre audit selon les normes professionnelles applicables en France ; ces normes requièrent la mise en œuvre de diligences permettant d'obtenir l'assurance raisonnable que les comptes annuels ne comportent pas d'anomalies significatives. Un audit consiste à examiner, par sondages, les éléments probants justifiant les données contenues dans ces comptes. Il consiste également à apprécier les principes comptables suivis et les estimations significatives retenues pour l'arrêté des comptes et à apprécier leur présentation d'ensemble. Nous estimons que nos contrôles fournissent une base raisonnable à l'opinion exprimée ci-après.

Nous certifions que les comptes annuels sont, au regard des règles et principes comptables français, réguliers et sincères et donnent une image fidèle du résultat des opérations de l'exercice écoulé ainsi que de la situation financière et du patrimoine de l'association à la fin de cet exercice.
