

Development basin councils and committees in Central Asia

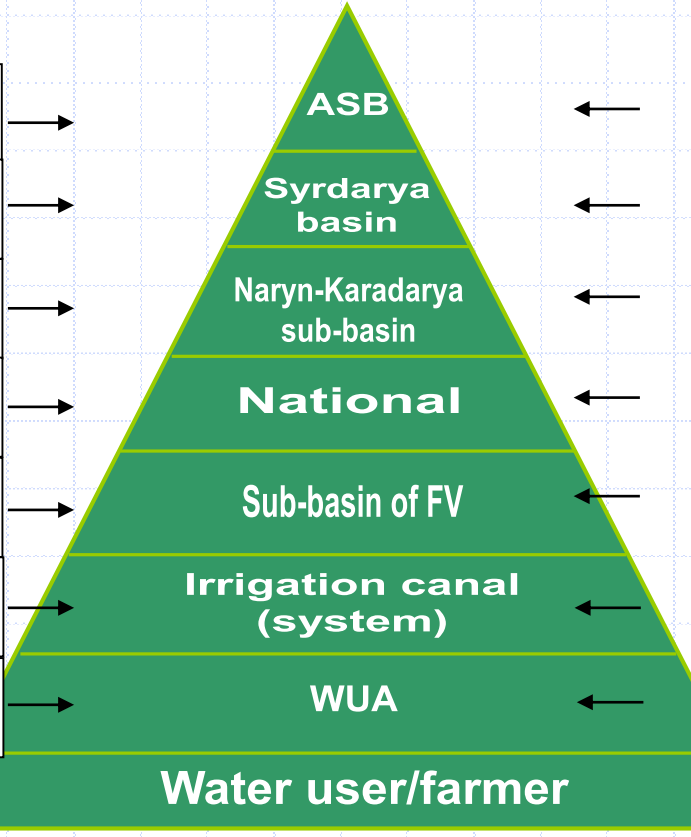

Professor Viktor A. Dukhovniy,
Dr. Nazir Mirzaev
EECCA BWNetwork,
2 June 2016, Merida, Mexico

IMPLEMENTATION IWRM

- ❑ In 2003 Uzbekistan Gov accepted reformation of water management system on the base IWRM principles(hydrographization, public participation, ...).
- ❑ Accordance Decree of Cabinets Ministers from 21 July 2003 г. №320) was created:
 - ✓ Basin Water Management Oegанизations (BWMO)
 - ✓ Basins' Water Councils.
- ❑ BWCs follow in its activity «Statute of BWC» and Plan of works agreed by Council and approved by Chief of BWMO.
- ❑ Meetings of BWCs take place one time per month, but additional meetings could be done by degree of needs.

Water supply governance entities

ICWC Water
BWO «Syrdarya» Water Committee
Naryn-Karadarya SB Wat.Com.
National water council
Sub-basin water committee
Canal (system) water committee

ICWC
BWO «Syrdarya»
Sub-basin Adm. "Naryn-Karadarya"
National water administration
Sub-basin administration
Canal (system)
WUA administration

Water supply management entities

Water demand governance entities

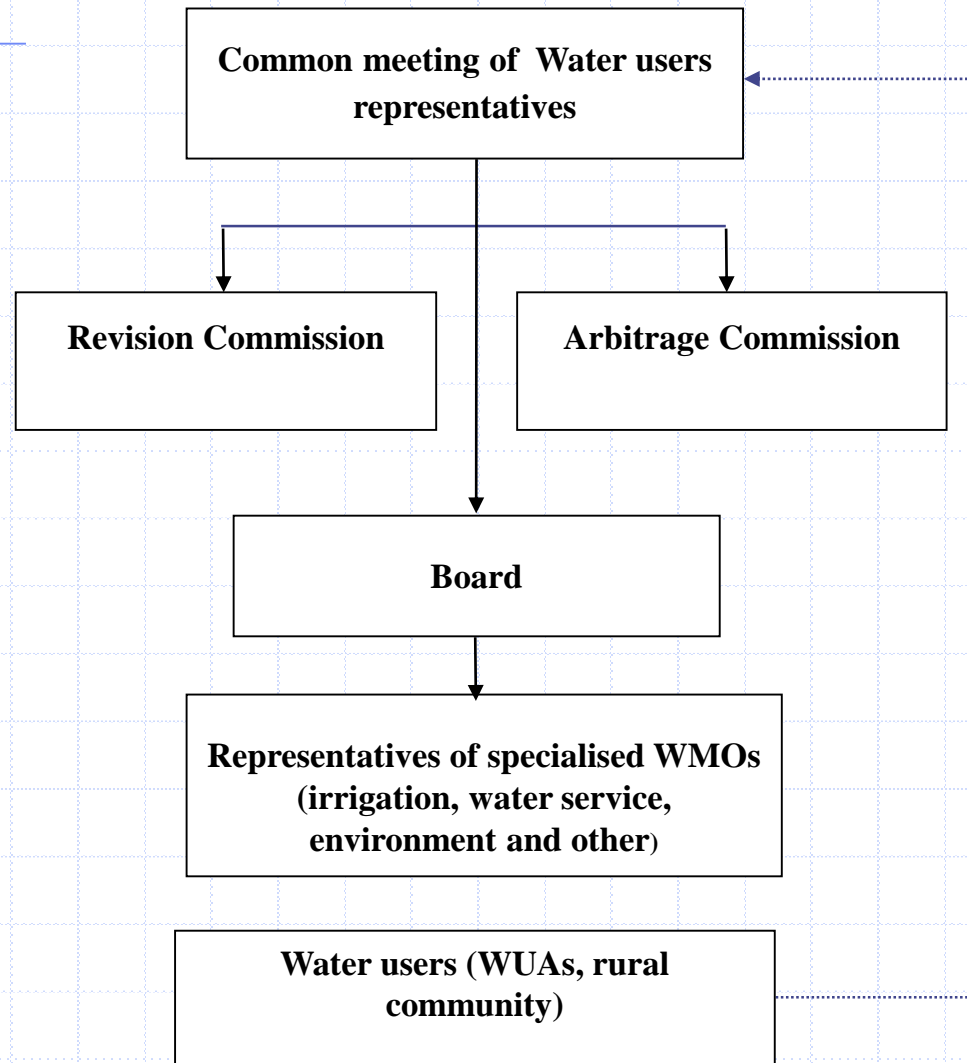

National water council
Provincial water and land commission
District water and land administration
WUA Administration

National water administration
Provincial water management
District water management
WUA Administration

Water demand management entities

Structure of new WBC

Total Water Withdrawal to the South Fergana Canal System (during vegetation period: April - September)

Vision of future development WBC

- Vision include some stages strengthening of potential of governance bodies by:
 - ✓ Reassessment Status of WBC as principle Governance body with participation of all stake holders and increase their input in process of management and financial contributions.
 - ✓ Establishment network of Training Centers and systematic increase level of knowledge and responsibility of water professionals and stakeholders through regular workshops – seminars with growth of mutual trust of them.
 - ✓ Organizations of transparent and objective on-line information from bottom to top and from top to down as method of involvement different stakeholders in water governance and water management same as common decision of future problems.
 - ✓ Broad integration of Water users Associations (WUAs) in the WBCs and CWCs and increase their financial input in water management.
 - ✓ Legal increase of status WBC as governance body with decision-making.

Our goal – to transform IWRM in single way for survival of Central Asia region in condition of growing water scarcity

Thank you for attention!!!
