GLOSSARY OF SYMBOLS

488 pages, 115 tables, 90 Figures, in the text.

Appendix Tables (69 p.); References (33 p.). Scientific Bibliography, from 1932 to 2007. A colour Map of the Amazon River Basin.

All data are published. Natural coherence within the huge Amazon system is tested. Some classical concepts are revisited. This work answers to the question: *what are the optimal climatic conditions, insuring the maximal efficiency, for forests, soils and rivers, to control our Global Environment ?*
