

Cultural and Technical Visit Programme

Be part of the Cultural Program to
Chichen Itza Archaeological Site

Did you know that the cenotes are the most interesting natural phenomenon in Yucatan? Without them, the ancient Maya people would have lacked sufficient water, because there are no rivers or lakes of importance in the area.

Learn more about this complex underground river system in the Technical Visit to Cenote Zaci Valladolid, Yucatan

JUNE 4TH, 2016
07:50 – 17:30 hrs.
