

SDG6: The world is not on the right track ...unless we all act together!

**ODD6: le monde n'est pas sur la bonne voie ...sauf si nous
agissons tous ensemble !**

**ODS6: el mundo no sigue en el camino correcto ...a menos que
actuemos juntos !**

2030 Agenda for sustainable development.

ODD 6...ODS 6 ...SDG 6..

SDG 6: Ensure access to water and sanitation for all
- 8 targets, 11 indicators

ODD 6 : Garantir l'accès de tous à l'eau et à l'assainissement et assurer une gestion durable des ressources en eau

ODS 6: Garantizar la disponibilidad de agua y su gestión sostenible y el saneamiento para todos

WASH services: the world is not on track !

Water services

One out of four people (more than 1.5 billion) uses an improved source of water that is contaminated.

844 million people still lacked even a basic drinking water service.

Sanitation services

2.3 billion people still lacked even a basic sanitation service.

892 million people worldwide still practised open defecation.

5 people die every minute because of water-related diseases

Source :JFM, Highlights from the SDG 6 synthesis report 2018 on Water and sanitation

WASH services: the world is not on track !

In many parts of the world:

- Water pollution is worsening
- Lack of funding
- Weak governance structures
- Lack of institutional and human capacity
- Continuous decline of ecosystems

What we need to get there : Know,Plan ,Act..

Know !

- **Understand the interdependency of SDGs**

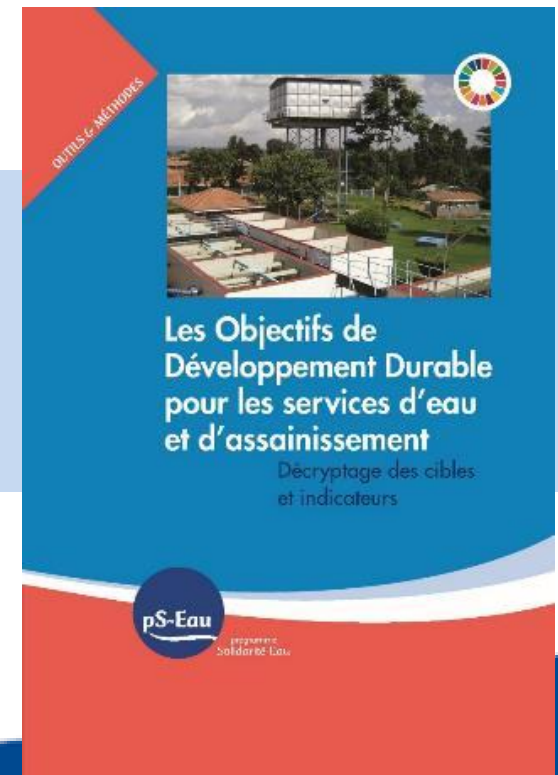

Achieving SDG 6 on water and sanitation services is essential to end poverty and advance health, agriculture, climate, gender, oceans etc..

- **Monitor more and better data**

- Published in English in March 2018
- Also available in French
- Spanish version to come

Open access version:

www.pseau.org/en/agenda-2030

What we need to get there : Know,Plan ,Act..

How to plan better

- **Governments must adapt to country contexts**
- **Implement integrated approaches (IWRM)**
- **Create and support multi-stakeholder cooperation**

What we need to get there : Know, Plan, Act..

Act

- **Eliminate inequalities**
- **Finance water and sanitation through a new paradigm :**
mobilise additional and innovative forms of domestic and international finance
- **Develop the necessary human and institutional capacity**
- **Ensure public participation**
- **Use smart technologies**

Thus, all the tasks required for implementing SDG 6 match exactly your skills and the subjects on which you have been working together for years within our INBO.

Therefore each of us should :

- **contribute to push the integration of SDG6 and of its targets into the country policies.**
- **share as much as possible his experience and know-how with all the least advanced countries on this subject.**
